Aristotles Gradations Of Being In

For Aristotle, "beingness" is not shared as through a universal, but rather "each instance is related to separate substance through focal meaning," and although this reference to a primary separate instance that is finite and that may be plural ultimately fails to account for unity, "through that relation all are beings and being is predicated of each in turn even though none ... is identical with the nature of being," which is a correlate of the fact that each tends toward its perfection by ...
