According to the American Library Association Top Technology Trends resource, libraries worldwide spend \$1.8 billion on technology. These facilities often offer users their first hands-on

access to new products. One popular way that libraries are increasing accessibility to new technologies is through makerspaces.

Public Library Trends in the Coming Years | USC MMLIS

New technologies are also changing the services that libraries provide, for example, online reference, instruction, document delivery, user-initiated library loan, direct borrowing and self-checkout.

How and Why Are Libraries Changing?

1. Change management. Higher education is a constantly changing sector – policy, technology, pedagogy and student behaviour all impact on the institution. The academic library is subject to these changes and there is a need to keep reviewing and renegotiating the position of the library within the institution.

10 skills librarians need for the future - Librarian Resources

2. Focus on all library groups. Another trend that we’ve noticed in the past year (but mostly during our time at the LAI Public Libraries Conference 2017 in Ireland) is the need to target the library’s services to different library groups, by creating different initiatives to personalize the library services for older people (Monaghan County Council Age Friendly county programme), for ...
