In Herbert A. Simon " In his influential book Administrative Behavior (1947), Simon sought to replace the highly simplified classical approach to economic modeling—based on a concept of the single decision-making, profit-maximizing entrepreneur—with an approach that recognized multiple factors that contribute to decision making. According to Simon, this theoretical framework provides a more realistic...

Herbert Simon made paradigm-changing contributions to the theory of rational behavior, including particularly his treatment of “satisficing” as an alternative to “maximizing” economic rationality . It is therefore worthwhile examining his views of organizations and organizational decision-making and action — especially given how relevant those theories are to my current research interest in organizational dysfunction.
