Critical Critters. Ceri Levy and Ralph Steadman set sail once more aboard the HMS Steadmanitania but this time their intention is not to study extinct or endangered birds, This time they turn their gaze on endangered animals of all species whose existence is treated by man's voracious expansion into all corners of the globe.

Created using the dirty
water technique,
Critical Critters

considers the plight of
animals the world over,
facing extinction due
largely to man's
interference in their
habitats, flesh and fur.
The dirty water
technique has been
pioneered by Ralph
and involves him
pouring the dirty water
he rinses his paint
brushes in (the older
and smellier the
better) onto a waiting
piece of paper.
