(PDF) IDENTITY AND GLOBALIZATION - ResearchGate

Abstract. Globalization—the increasing interconnectedness of societies, economies, and cultures—is a defining feature of contemporary social life. Paradoxically, it underlies both the dynamics of global crises (e.g., rising inequality, climate change) and the possibilities for ameliorating them. In this review, we introduce globalization as a multifaceted process and elaborate its psychological effects with respect to identity, culture, and collective action.

The Psychology of Globalization - Jeffrey Arnett

A simple way to understand how globalization has influenced human behaviour is to look at how some cultures values have changed over time. It is important to note that globalization is often referred to as Westernization, as the result is most frequently cultures adapting more Western values. In the first post in this globalization series, we are going to look at how the rise in Western (i.e. individualistic) values in Japan as a result of globalization might be having an effect on their ...

The Psychology of Globalization

Globalization has made exposure to multiple cultures not only possible, but often necessary and unavoidable. This article focuses on how people react and adapt to increasing globalization and multiculturalism. We posit that reactions to multiculturalism and intercultural contact are not universal and are themselves shaped by cultural experiences. That is, culture provides a frame of reference for reconciling and negotiating the inflow of foreign cultures and peoples.
