The collection, classification, and analysis of errors in the written and spoken performance of second or foreign language learners has had a role in language pedagogy since at least the 1950s. However, in the late 60s, and particularly in the 70s, the study of errors in non-native language performance, or Errors Analysis (EA), assumed a new role in applied linguistics.

Second Language Acquisition: Error Analysis | Annual ...

The two major causes of error, coined by the error analysis approach, are the Interlingual error which is an error made by the Learner's Linguistic background and Native language interference,

and the Intralingual error which is the error committed by the learners when they misuse some Target Language rules, considering that the error cause lies within and between the target language itself and the Learners false application of certain target language rules.
