Motivation, Language Identity and the L2 Self - Google Books

Identity-based motivation theory (IBM) is a social psychological theory of human motivation and goal pursuit, which explains when and in which situations people's identities or self-concepts

will motivate them to take action towards their goals. IBM predicts that the motivational power of our identities depends on which identities come to mind and what they are taken to mean in a given moment (termed "dynamic construction"), whether or not those identities feel like they fit with the ...
