To frame a roof, start by choosing a roof style, like A-frame or gabled. Then, gather your measurements by calculating the run, rise, and length of each rafter segment in feet, and the pitch of your roof in inches. Next, use these calculations to determine how many rafters you'll need for your roof and cut them to size.

How to Frame a Roof (with Pictures) - wikiHow

Roof framing is the next building component found within the load path. The roof framing must support the roof decking and sheathing and resist loads applied to the sheathing and transfer loads vertically to support walls (or frames).
