The Magic of Reality is an incredible book. It is very well written. Dawkins does not dumb it down nor does

he use superfluous scientific jargon. For example, he proposes a basic question like "What are things made of?" then goes about describing carefully what we know about atoms and how we know what we know. This book inspires me to learn more.

You can't miss with Richard Dawkins, if I'm being honest, and *The Magic of Reality* is a prime example.
