Dale, Daytona, and the Day that Changed Everything *Hachette Books*
There was one lap to go in the 2001 Daytona 500, NASCAR's most celebrated event. Michael Waltrip and Dale Earnhardt Jr. were running one-two. Junior's legendary dad, the driver race fans called "The Intimidator," was close behind in third, blocking anyone who might try to pass. Waltrip couldn't stop thinking about all the times he'd struggled to stay ahead--and the 462 NASCAR Cup races he'd lost without a single win. He'd been a race-car driver all his adult life, following in the footsteps of his brother Darrell, a three-time NASCAR champion. And his losing streak was getting more painful every race. But this day, he knew, could be different. He was driving for Dale Earnhardt now, racing as a team with his close friend and mentor. Yet as his car roared toward the finish line, ending that losing streak once and for all, Waltrip had no clue that the greatest triumph of his life could get mired in terrible tragedy. This is the story of that fateful afternoon in Daytona, a day whose echoes are still heard today.

But the story begins years earlier in a small town in Kentucky, with a boy who dreamed of racing cars, a boy who was determined to go from go-karts to the highest levels of NASCAR. For the first time ever, Michael Waltrip tells the full, revealing story of how he got to Daytona, what happened there, and the huge impact it had on so many in the racing world. He reveals for the first time how his own life changed as he dealt with guilt, faced his grief, and searched for the fortitude to climb into a race car again. It's an inspiring and powerful story, told with Michael's trademark humor, honesty, and irreverence. It's a story of family, fulfillment, and redemption--and well-earned victory in the end.

A Memoir of Dying—and Learning How to Live Again *The Experiment*

"A highly personal, deeply affecting account of what it is to be yanked from a happy, well-ordered life and thrust into a sudden, unimaginable, terrifying darkness. Bryson It was New Year's Day. Rikke Schmidt Kjærgaard, a young mother and scientist, was celebrating with family and friends when she was struck down with a sudden fever. Within hours, she'd suffered multiple organ failure and was clinically dead. Then, brought back to the edge of life—trapped in a near-death coma—she was given a 5 percent chance of survival. A Cultural History of Spectacles *Reaktion Books*

From monocles to pince-nez and goggle-eyes, a cultural and technological history of glasses in fact and fiction. This book examines those who wore glasses through history, art, and literature, from the green emerald through which Emperor Nero watched gladiator fights to Benjamin Franklin's homemade bifocals, and from Marilyn Monroe's cat-eye glasses to the famed four-eyes of Emma Bovary and Harry Potter. Spectacles are objects that seem commonplace, but In the Blink of an Eye shows that because they fundamentally changed people's lives, glasses were the wellspring of a quiet social, cultural, and economic revolution. Indeed, one can argue that modernity itself began with the paradigm shift that transformed poor eyesight from a severely limiting disease—treated with pomades and tinctures—into a minor impairment that can be remedied with mechanisms constructed from lenses and wire.

Cultures collide when they find themselves thrown together as fugitives in a high-stakes chase across Southern California. In the Blink of an Eye *Random House*

Like the sinking of the Titanic, the crash of TWA Flight 800 just off Long Island, New York, in the early evening of July 17, 1996, captured the world's imagination. Associated Press reporter Pat Milton has covered the story from day one and was granted unprecedented access to the FBI investigation--the largest and most complex in the agency's history. Initially suspecting that a crime had been committed, James Kallstrom, the head of the FBI's New York office, led the two-year investigation from the start. *In the Blink of an Eye* offers a rare look at the efforts of several government agencies--which often had different missions--to find the truth about the most mysterious and disturbing disaster in aviation history. Commercial jets don't just fall out of the sky. So what happened? Was TWA's Flight 800 the first plane to be downed by enemy action within the United States? On the night of the crash, President Clinton told his national security advisors to ready a plan to retaliate if the destruction of Flight 800 proved to be a state-sponsored terrorist attack. If a bomb or missile had caused the disaster, Kallstrom was determined to find the perpetrators before they struck again. If it wasn't either of these, he was no less determined to preclude the sort of conspiracy theorizing that followed the Warren Commission report on the assassination of JFK. As Kallstrom and his agents tried to piece together the sequence of events that preceded the explosion of Flight 800's center fuel tank, the victims' families also had to come to terms with the tragedy. Their anguish was as much on Kallstrom's mind as the details of the mystery itself. In this vivid account, Pat Milton takes us inside the homes and lives of the victims' families as well as inside the investigation, and as close to the real cause of the crash as we'll ever come.

Ground-breaking and accessible, this book unravels the evidence demonstrating that this was the period when the eye evolved, leading to an evolutionary scramble for survival.

In the Blink of an Eye

Reborn

One man's battle to get his life back after locked-in stroke left him totally paralysed. Peter Coghlan is an ordinary bloke whose life is transformed, for the second time, after a knock to the head. So begins an extraordinary story of recovery. Peter takes the reader on a journey that will appeal to those who can relate to Peter's circumstances as well as those wanting to understand what it means to be 'Locked-in', what it takes to break free and how to build a new life. A story told in two parts, it is (at times) uncomfortable, drawing the reader into a reality where what happens is not in his control; but Peter's easy dialogue, honesty and irrepressible humour make that journey very well worth taking with him. Be prepared to laugh, cringe and cry. His story offers some answers, but also raises many questions about the obstacles to overcome and what 'success' can look and feel like, as well as shining a light on how society can view people with disabilities. Despite many setbacks and difficulties, at the heart of this story is an acknowledgement of the sacrifices he and others made, with a deep appreciation of the love, care and professionalism shown by those helping him along the way to becoming Peter Coghlan - reborn.

In the Blink of an Ear

Toward a Non-Cochlear Sonic Art *Bloomsbury Publishing USA*

An ear-opening reassessment of sonic art from World War II to the present Marcel Duchamp famously championed a "non-retinal" visual art, rejecting judgments of taste and beauty. In the Blink of an Ear is the first book to ask why the sonic arts did not experience a parallel turn toward a non-cochlear sonic art, imagined as both a response and a complement to Duchamp's conceptualism. Rather than treat sound art as an artistic practice unto itself-or as the unwanted child of music-artist and theorist Seth Kim-Cohen relates the post-War sonic arts to contemporaneous movements in the gallery arts. Applying key ideas from poststructuralism, deconstruction, and art history, In the Blink of an Ear suggests that the sonic arts have been subject to the same cultural pressures that have shaped minimalism, conceptualism, appropriation, and relational aesthetics. Sonic practice and theory have downplayed - or, in many cases, completely rejected - the de-formalization of the artwork and its simultaneous animation in the conceptual realm. Starting in 1948, the simultaneous examples of John Cage and Pierre Schaeffer initiated a sonic theory-in-practice, fusing Clement Greenberg's media-specificity with a phenomenological emphasis on perception. Subsequently, the "sound-in-itself" tendency has become the dominant paradigm for the production and reception of sound art. Engaged with critical texts by Jacques Derrida, Rosalind Krauss, Friedrich Kittler, Jean François Lyotard, and Jacques Attali, among others, Seth Kim-Cohen convincingly argues for a reassessment of the short history of sound art, rejecting sound-in-itself in favor of a reading of sound's expanded

situation and its uncontainable textuality. At the same time, this important book establishes the principles for a nascent non-cochlear sonic practice, embracing the inevitable interaction of sound with the social, the linguistic, the philosophical, the political, and the technological. Artists discussed include: George Brecht John Cage Janet Cardiff Marcel Duchamp Bob Dylan Valie Export Luc Ferrari Jarrod Fowler Jacob Kirkegaard Alvin Lucier Robert Morris Muddy Waters John Oswald Marina Rosenfeld Pierre Schaeffer Stephen Vitiello La Monte Young

An Inspiring And True Story Of Enduring Love *Orion*

In the Blink of an Eye**Growing Up in Rural Oxfordshire** *Createspace Independent Publishing Platform*

For rural England, the 1950s and 1960s was a time of dramatic transition and change as we moved from wartime austerity with the radio and the local cinema as our entertainment, into the age of TV and the motor car. Social changes and changes in attitudes to sex, religion and the class system were also to have a major impact on rural life. This book attempts to capture this time of change as it affected the small hamlet of Fawler in North Oxfordshire, and to record for posterity a way of life now largely lost. It deals, sometime frankly, but sensitively with life as experience by the author with extensive contributions by his sister from her unpublished memoir of childhood.

Blink**The Power of Thinking Without Thinking** *Back Bay Books*

From the #1 bestselling author of *The Bomber Mafia*, the landmark book that has revolutionized the way we understand leadership and decision making. In his breakthrough bestseller *The Tipping Point*, Malcolm Gladwell redefined how we understand the world around us. Now, in *Blink*, he revolutionizes the way we understand the world within. *Blink* is a book about how we think without thinking, about choices that seem to be made in an instant--in the blink of an eye--that actually aren't as simple as they seem. Why are some people brilliant decision makers, while others are consistently inept? Why do some people follow their instincts and win, while others end up stumbling into error? How do our brains really work--in the office, in the classroom, in the kitchen, and in the bedroom? And why are the best decisions often those that are impossible to explain to others? In *Blink* we meet the psychologist who has learned to predict whether a marriage will last, based on a few minutes of observing a couple; the tennis coach who knows when a player will double-fault before the racket even makes contact with the ball; the antiquities experts who recognize a fake at a glance. Here, too, are great failures of "blink": the election of Warren Harding; "New Coke"; and the shooting of Amadou Diallo by police. *Blink* reveals that great decision makers aren't those who process the most information or spend the most time

deliberating, but those who have perfected the art of "thin-slicing"--filtering the very few factors that matter from an overwhelming number of variables.

In the Blink of an Eye**The Diving Bell and the Butterfly** *Vintage*

A celebration of the liberating power of consciousness—a triumphant book that lets us witness an indomitable spirit and share in the pure joy of its own survival. In 1995, Jean-Dominique Bauby was the editor-in-chief of French *Elle*, the father of two young children, a 44-year-old man known and loved for his wit, his style, and his impassioned approach to life. By the end of the year he was also the victim of a rare kind of stroke to the brainstem. After 20 days in a coma, Bauby awoke into a body which had all but stopped working: only his left eye functioned, allowing him to see and, by blinking it, to make clear that his mind was unimpaired. Almost miraculously, he was soon able to express himself in the richest detail: dictating a word at a time, blinking to select each letter as the alphabet was recited to him slowly, over and over again. In the same way, he was able

eventually to compose this extraordinary book. By turns wistful, mischievous, angry, and witty, Bauby bears witness to his determination to live as fully in his mind as he had been able to do in his body. He explains the joy, and deep sadness, of seeing his children and of hearing his aged father's voice on the phone. In magical sequences, he imagines traveling to other places and times and of lying next to the woman he loves. Fed only intravenously, he imagines preparing and tasting the full flavor of delectable dishes. Again and again he returns to an "inexhaustible reservoir of sensations," keeping in touch with himself and the life around him. Jean-Dominique Bauby died two days after the French publication of *The Diving Bell and the Butterfly*. This book is a lasting testament to his life.
