Introduction Classroom discourse analysis is an aspect of classroom process research. It helps teachers understand how teachers use a language in classroom.

As is said by Cook (1989, viii), discourse analysis takes traditional teaching of vocabulary, pronunciation and grammar as the basis of foreign language knowledge, and attends on how to apply the knowledge into practice and succeed in social communication.

Discourse analysis will show the students how native English speakers use English to interact and communicate in their real social lives.

Gee's definition of Discourse is a theory that explains how language works in society. His theory of Discourse is grounded in social and cultural views of literacy.

In sum, teachers can use discourse analysis not only as a research method for investigating their own teaching practices but also as a tool for studying interactions among language learners.

Discourse-based teaching using authentic written and spoken discourse can be a perfect resource for teachers to teach the different language skills.

Discourse analysis is concerned with the relationship between language and the contexts it is used in.

Discourse Analysis is interdisciplinary in nature and has applications in several fields to which language has a particular relevance.

Rhetorical analysis (Tardy & Courtney, 2008) is another important classroom activity as it connects the students' writing with the discourse community at which it is aimed. This involves consideration of the audience, purpose, conventions, and biases as they relate to the particular genre being focused on.

The focus on the intersection of discourse analysis and language education indicates that three approaches, namely Critical discourse analysis, Descriptive discourse analysis, and Pedagogical discourse analysis have been taken by practitioners in educational context.

The field of critical discourse analysis (CDA) involves taking a deeper, qualitative look at different types of texts, whether in advertising, literature, or journalism. Analysts try to understand ways in which language connects to social, cultural, and political power structures.

Only relatively recently has discourse analysis begun to have an impact on how English grammar (i.e., the rules of morphology and syntax) is taught to non-native speakers of English.

Discourse analysis is a study that aims at discussing the relations that exist between language and the context of use (McCarthy 1991). Discourse is defined as something that people talk about. Therefore, it has to be properly analysed and understood.

Discourse analysis melds linguistics and sociology by taking into account the social and cultural context that language is used. It can be used by businesses, academic researchers, or the government—any person or organization that wants to better understand an aspect of communication. What Discourse Analysis Does

Discourse analysis has been taken up in a variety of disciplines in the humanities and social sciences, including linguistics, education, sociology, anthropology, social work, cognitive psychology, social psychology, area studies, cultural studies, international relations, human geography, environmental science, communication studies, biblical studies, public relations and translation studies, each of which is subject to its own assumptions, dimensions of analysis, and methodologies.
