Black and Smokeless Powders: Technologies for Finding ...

After a bombing takes place, much information about the improvised explosive device can be obtained through careful processing of the bomb scene. In bombing incidents in which black or smokeless powder is used, bomb components recovered may include unreacted or partially burned powder, chemical products of the reaction, and parts of the device, such as the container used to contain the powder, the container used to transport the device, triggering or delay mechanisms, and adhesive tape.
