Data Analytics in the News Industry highlights the research behind the innovations and emerging practices being implemented within the journalism industry. This crucial, industry-shattering publication focuses on key topics in social media and video streaming as a new form of media communication as well the application of big data and data analytics for collecting information and drawing conclusions about the current and future state of print and digital news.

Contemporary Research Methods and Data Analytics in the ...

1.2 Data, information and research findings Data are the raw facts that record measures of certain phenomena which are necessary to constitute a

research work, whereas information is the presentation of facts in a suitable form for researchers to make decisions. Research findings are the outcome of the research described through effective information. Findings are obtained through a rigorous

Research Methodology - Contemporary Practices

These articles provide examples for use in classes on qualitative research methods, and can serve to inspire others to use contemporary methods. We encourage sport management researchers to learn about and use contemporary qualitative data collection and analysis, and alternative means of disseminating their work to further enhance the field and challenge ways of

knowing and doing research.

Contemporary qualitative research methods in sport ...

An introduction to research methods. Research methods are specific procedures for collecting and analyzing data. Developing your research methods is an integral part of your research design. When planning your methods, there are two key decisions you will make. First, decide how you will collect data. Your methods depend on what type of data you need to answer your research question:
