The Digestive System.

All processes in our

body need energy that

we retrieve from food.

In order to convert it

into energy, food must be fragmented down into its components. The organs of the digestive tract split the food both mechanically and chemically and allow nutrients to pass into the blood and with this, into each individual cell.

Suzy's World - Digestion (Episode) - Suzy Cato explores the workings of the digestive system in her science programme for five to nine year olds. A plate of baked beans is the starting point — but, first, the inevitable by-product of baked bean consumption is addressed in vox pops. Vinegar, funnels and pantyhose are just some of the aids Cato uses to simulate the process; and the changes are ...
