Flying American Combat Aircraft Vol 2 The Cold War

The Avro Canada VZ-9
Avrocar, or simply the
VZ-9, was a Canadian
VTOL aircraft
developed by Avro
Aircraft Ltd. which
utilizes this
phenomenon by
blowing air into a
central area, then it is
directed down over the
top surface, which is
parabolic and
resembles a bowed
flying saucer. Due to
the Coandă effect, the
airflow is attracted to
the nearest surface
and continues to move
along that surface
despite the change in
the surface's direction
away from the airflow.

Aircraft were divided
into three different
types - 'A' for fixed-
wing aircraft, 'H' for
helicopters, or 'V' for
V/STOL aircraft, and
then were given a
mission modifier,
which, unlike the USAF
system, came after the
type code: 'C' for
transports, 'O' for
observation and
reconnaissance
aircraft, 'U' for utility
types, and 'Z' for
experimental aircraft.
Aircraft types
designated in this

system were numbered sequentially.

List of military aircraft of the United States - Wikipedia

Classic examples of flying wings are the German World War 2-era Horten Go 229 and the modern-day Northrop Grumman B-2 'Spirit' stealth bomber. Many in-service and upcoming UAV forms are also relying more and more on the flying wing arrangement. There are a total of [25] Flying Wing Aircraft entries in the Military Factory. Entries are listed below in alphanumeric order (1-to-Z).

Flying Wing Aircraft - Military Factory

Flyovers are an American tradition, fitting for the country

that produced the Wright Brothers. However, flyovers have worldwide roots and worldwide flavor. The British also performed flyovers on the Western Front during World War I, and "the fly past" remains a tradition in the British, Canadian, and Australian armed services.

Praise from Above: The American Tradition of the Military ...

The Ryan (originally North American) Navion is a single-engine, unpressurized, retractable gear, four-seat aircraft originally designed and built by North American Aviation in the 1940s. It was later built by Ryan Aeronautical Company and the Tubular Steel

Corporation (TUSCO). The Navion was envisioned as an aircraft that would perfectly match the expected postwar boom in civilian aviation ...

Ryan Navion - Wikipedia

Adapted as a fighter-bomber, the F-100 was supplanted by the Mach two-class F-105 Thunderchief for strike missions over North Vietnam. The F-100 flew extensively over South Vietnam as the air force's primary close air support jet until being replaced by the more efficient subsonic LTV A-7 Corsair II. The F-100 also served in other NATO air forces and with other U.S. allies. In its later life, it was often referred to as the Hun, a shortened

version of "one hundred".

North American F-100 Super Sabre - Wikipedia

Over the years, he and his collaborator, Charles D. Bright, collected a series of firsthand accounts of what it was like to fly some of the American and British combat aircraft of the period. He constructed a questionnaire dealing the mechanics and personal flying experiences of the contributors, asking for additional information when the responses were incomplete.
