Critical Incident Stress ...

Traumatic Incident Reduction provides a safe space and the means to fully examine that which had been blocked. A past incident loses its ability to hurt us at the point where we have looked it through and through. In the process, we release our resistance as well as the painful emotion and negative thought patterns contained in that past trauma.

What is Traumatic Incident Reduction (TIR)?

Norfolk's Critical Incident Support Service has a strong history of providing support to schools since it was first launched over 20 years ago. The Critical Incident Service was developed in 1995, when schools requested support in relation to children whose parents were

engaged in the Gulf war, as well as following requests from individual schools where a death or a traumatic event had occurred.

Critical Incident, Bereavement and Trauma - Educational ...

CISD was developed to provide a safe, open, and non-judgmental space for trauma survivors, enabling each participant to share their initial reactions and emotions following a critical incident. The group sessions can reduce trauma impact, help survivors recover, and identify those participants who require additional support.

In the aftermath of any critical incident, psychological reactions are quite common and are quite predictable. Critical Incident Stress Debriefing or

CISD and the management of traumatic reactions...

Critical Incident Stress Debriefing From a Traumatic Event ...

Traumatic Incident Reduction (TIR) operates on the principle that a permanent resolution of a case requires anamnesis (recovery of repressed memories), rather than mere catharsis or coping. To understand why clients have to achieve an anamnesis in order to resolve past trauma, we must take a person-centered viewpoint, i.e., the client's viewpoint and, from that viewpoint, explain what makes trauma traumatic.
