Harry Rimmer - Wikipedia

Evolution is a science fact the same as the Earth is round. We might not be 100% on the details, just as the Earth isn't exactly round, it bulges, but no one today would argue the Earth is flat and no reputable scientist should argue evolution does not occur.

10 Interesting Facts About Evolution - What is Science ...

Biologists often say that "evolution is a fact" (see, for example, Futuyma, 1979; Edwards, 1987), and creationists often say that "evolution is just a theory." To evaluate the truth in these contradictory statements, one needs to examine fact and theory and the context in which the terms are used. The most basic facts in science are the "brute, sensory facts" from perceptions which are shared and on which we agree.

Harry Rimmer - Creation History Wiki

Many scientists and philosophers of science have described evolution as fact and theory, a phrase which was used as the title of an article by paleontologist Stephen Jay Gould in 1981. He describes fact in science as meaning data, not known with absolute certainty but "confirmed to such a degree that it would be perverse to withhold provisional assent". A scientific theory is a well-substantiated explanation of such facts. The facts of evolution come from observational evidence of current proces

Evolution as fact and theory - Wikipedia

The theory of evolution is one of the fundamental keystones of modern biological theory. The diversity of the living world is staggering. More than 2 million existing species of organisms have been named and described; many more remain to be discovered—from 10 million to 30 million, according to some estimates.
