Deep Purple: Fire in the Sky

These days Deep Purple's 'Smoke on the Water' is such a ubiquitous rock anthem that it almost seems as if it's been out there forever. Yet the story of how this most famous of metal tracks came into being is shot-through with chance incidents, any one of which could have seen the recording stifled at birth, leaving music writers to scramble about for another "best riff of all time" contender (and five hard-working musicians considerably less well-off.) Fire in the Sky looks in detail at this crucial period in Deep Purple's history and the making of their break-through album 'Machine Head'. The basic fact that a fire destroyed the Montreux Casino during a Frank Zappa concert is well known to most music fans, leaving Deep Purple to find somewhere else to record, but this book brings much new information to light. And although 'Smoke On The Water' was laid down while the Swiss Police hammered at the door of a roller skating rink, the band were then forced to move again, ending up at the Grand Hotel where they built a studio in the corridors using old mattresses and egg cartons for sound-proofing. In the chaos, 'Smoke on the Water' was almost forgotten. The band only roughed it out as something to play to their Montreux host, Jazz festival organiser Claude Nobs, who told them it was far too good to leave in the can. This book looks back at the events which led up to Deep Purple's bizarre and Heath Robinson-esque 'Machine Head' recording sessions in the winter of 1971. And as for that "hit to be"; 'Smoke On The Water' was not even tried out on stage, and might never have been played live at all were it not for a request from the BBC for a radio session. It went on to sell 12 million copies when issued as a single in 1973 and is probably the only record to ever generate a gold disc presented to a city. And yes, there really is a music shop in London which threatens to fine budding guitarists should they dare to try out the riff in-store. And in these times of economic hardship, isn't it inspiring to know that punitive tax rates back home were responsible for Deep Purple being in Montreux in the first place? The book moves on through 1972 and takes in the subsequent debilitating American tours where 'Machine Head' quickly became a massive selling album, even as the relentless gigging pulled Deep Purple apart. Memorabilia and many rare and

unseen photographs illustrate the story, including remarkable images of the Casino fire and aftermath, and Ian Gillan with his notepad writing the lyrics to 'Smoke On The Water' in the studio. Members of the band have spoken, as well as associated crew and studio staff. The music and gigs are covered while appendices include tour dates and a discography, as well as a map showing the sites connected with the recordings. Several myths are also laid to rest: Many fans trekking to Montreux visit the wrong Grand Hotel altogether, while down the road the wealthy owners of luxury apartments sit blithely unaware of the musical history made in their living rooms. During research for this book the authors revisited the site of the recordings in Montreux with bass player Roger Glover to gain a unique insight into the album's history. As a result of this visit locals are preparing a heritage plaque to mark the site.

With its down and dirty depiction of warfare written by men who know what it’s like to be under fire, the Starfist saga is a runaway success across America. Now, in the explosive new Starfist adventure, packed with fierce action and danger, Marines at war in future space find themselves pitted against a faceless, insatiable foe bent on destroying them. And that’s just for starters. How bad is the upcoming mission facing the battle-hardened Marines of 34th Fleet Initial Strike Team (FIST), the military’s unofficial alien first-contact force? Bad enough to make the brass take the unprecedented step of issuing 34th FIST replacements for combat losses before the Marines even leave their home base. In response to a series of unexplained deaths on a lonely outpost on the frontiers of human space, 34th FIST has been dispatched to investigate-and eradicate- the problem. Beyond that, the information available to Gunnery Sergeant Charlie Bass and his men is meager even by Marine standards. No one knows what awaits them, for the newly colonized world remains largely unexplored. That means 34th FIST can expect creatures they have never seen, or even heard of, much less trained for. It could be Skink acid shooters, could be anything, for the barren station has several secrets-all of them deadly. But the last thing these Marines expect to find is themselves in the middle of an invasion and a mysterious war-with none other than 34th FIST as Enemy #1. Whatever happens, they'll deal with it, because they’re Marines, determined to be ready . . . and to give worse than they get.
