The Best Things in Life

A Guide to What Really Matters *Oxford University Press*

For centuries, philosophers, theologians, moralists, and ordinary people have asked: How should we live? What makes for a good life? In The Best Things in Life, distinguished philosopher Thomas Hurka takes a fresh look at these perennial questions as they arise for us now in the 21st century. Should we value family over career? How do we balance self-interest and serving others? What activities bring us the most joy? While religion, literature, popular psychology, and everyday wisdom all grapple with these questions, philosophy more than anything else uses the tools of reason to make important distinctions, cut away irrelevancies, and distill these issues down to their essentials. Hurka argues that if we are to live a good life, one thing we need to know is which activities and experiences will most likely lead us to happiness and which will keep us from it, while also reminding us that happiness isn't the only thing that makes life good. Hurka explores many topics: four types of good feeling (and the limits of good feeling); how we can improve our baseline level of happiness (making more money, it turns out, isn't the answer); which kinds of knowledge are most worth having; the importance of achieving worthwhile goals; the value of love and friendship; and much more. Unlike many philosophers, he stresses that there isn't just one good in life but many: pleasure, as Epicurus argued, is indeed one, but knowledge, as Socrates contended, is another, as is achievement. And while the great philosophers can help us understand what matters most in life, Hurka shows that we must ultimately decide for ourselves. This delightfully accessible book offers timely guidance on answering the most important question any of us will ever ask: How do we live a good life?

The Costs of Living

How Market Freedom Erodes the Best Things in Life *Xlibris Corporation*
We all value freedom, family, friends, work, education, health, and leisure—“the best things in life.” But the pressure we experience to chase the dollar in order to satisfy both the demands of the bottom line and the demands of our seemingly insatiable desire to consume are eroding these best things in life. Our children now value profit centers, not sports heroes. Our educational system is fast becoming nothing more than a financial investment where students are encouraged to expend more energy on making the grade than on learning about their world. Our business leaders are turning young idealists into cynics when they cut corners and explain that “everybody’s doing it.” The need to achieve in our careers intrudes so greatly on our personal world that we find ourselves weighing the “costs” of enjoying friendships rather than working. In this book, psychologist Barry Schwartz unravels how market freedom has insidiously expanded its reach into domains where it does not belong. He shows how this trend developed from a misguided application of the American value of individuality and self-pursuit, and how it was aided by our turning away from the basic social institutions that once offered traditional community values. These developments have left us within an overall framework for living where worth is measured entirely by usefulness in the marketplace. The more we allow market considerations to guide our lives, the more we will continue to incur the real costs of living, among them disappointment and loneliness.We all value freedom, family, friends, work, education, health, and leisure—“the best things in life.” But the pressure we experience to chase the dollar in order to satisfy both the demands of the bottom line and the demands of our seemingly insatiable desire to consume are eroding these best things in life. The Best Things in Life

Maybe in Another Life

A Novel *Simon and Schuster*
A People Magazine Pick * US Weekly “Must” Pick * Named “Best Book of the Summer” by Glamour * Good Housekeeping * USA TODAY * Cosmopolitan * PopSugar * Working Mother * Bustle * Goodreads From the acclaimed author of The Seven Husbands of Evelyn Hugo and After I Do comes a breathtaking new novel about a young woman whose fate hinges on the choice she makes after bumping into an old flame; in alternating chapters, we see two possible scenarios unfold—with stunningly different results. At the age of twenty-nine, Hannah Martin still has no idea what she wants to do with her life. She has lived in six different cities and held countless meaningless jobs since graduating college. On the heels of leaving yet another city, Hannah moves back to her hometown of Los Angeles and takes up residence in her best friend Gabby’s guestroom. Shortly after getting back to town, Hannah goes out to a bar one night with Gabby and meets up with her high school boyfriend, Ethan. Just after midnight, Gabby asks Hannah if she’s ready to go. A moment later, Ethan offers to give her a ride later if she wants to stay. Hannah hesitates. What happens if she leaves with Gabby? What happens if she leaves with Ethan? In concurrent storylines, Hannah lives out the effects of each decision. Quickly, these parallel universes develop into radically different stories with large-scale consequences for Hannah, as well as the people around her. As the two alternate realities run their course, Maybe in Another Life raises questions about fate and true love: Is anything meant to be? How much in our life is determined by chance? And perhaps, most compellingly: Is there such a thing as a soul mate? Hannah believes there is. And, in both worlds, she believes she’s found him.

The authors enhance our understanding of what savoring is and the conditions under which it occurs. Savoring provides a new theoretical model for conceptualizing and understanding the psychology of enjoyment and the processes through which people manage positive emotions. The authors review their quantitative research on savoring, as well as the research of others, and provide measurement instruments with scoring instructions for assessing and studying savoring. Authors Bryant and Veroff outline the necessary preconditions that must exist for savoring to occur and distinguish savoring from related concepts such as coping, pleasure, positive affect, emotional intelligence, flow, and meditation. The book’s lifespan perspective includes a conceptual analysis of the role of time in savoring. Savoring is also considered in relation to human concerns, such as love, friendship, physical and mental health, creativity, and spirituality. Strategies and hands-on exercises that people can use to enhance savoring in their lives are provided, along with a review of factors that enhance savoring. Savoring is intended for researchers, students, and practitioners interested in positive psychology from the fields of social, clinical, health, and personality psychology and related disciplines. The book may serve as a supplemental text in courses on positive psychology, emotion and motivation, and other related topics. The Community Book Project

20/20 Vision *Independently Published*

The Community Book Project: 20/20 VisionThis is a "bigger book" in The Community Book Project series-one devoted to completing one decade and welcoming a new one. The vision: The idea was to bring together a number of writers to paint, with words, a picture of inspiration and vision for readers world-wide. It would include humorous and poignant stories of years' past, along with ideas for the future. The book would be buttoned up with essays of gratitude. The contributors would receive guidance and editorial feedback from a USA TODAY & WALL STREET JOURNAL bestselling and award-winning author, and then the essays would be collected in this volume. The contributors:

We welcomed nearly 40 writers to this project. They came from all walks of life and from all around the world. It was such a joy and pleasure to get to know them, their writing styles and their stories. How it worked: After selecting a prompt, contributors were asked to write and submit "200 words-ish." The pieces were collected and reviewed by me, the editor. Some were good to go-and some were good to go with a few revisions. All contributors had an opportunity to stretch their "expression through writing" muscles and be a part of a greater community where they shared, laughed and inspired each other. This is the result-we do hope you enjoy it! Donna Kozik, creator and lead editor of The Community Book Project, is a USA Today and Wall Street Journal bestselling and award-winning author. You can find out more about The Community Book Project and how to join the writing fun at www.TheCommunityBookProject.com.

The Little Prince *GENERAL PRESS*

First published in 1943, The Little Prince by Antoine de Saint-Exupéry has been translated into more than 250 languages, becoming a global phenomenon. The Sahara desert is the scenery of Little Prince’s story. The narrator’s plane has crashed there and he has scarcely some food and water to survive. Trying to comprehend what caused the crash, the Little Prince appears. The serious blonde little boy asks to draw him a sheep. The narrator consents to the strange fellow’s request. They soon become friends and the Little Prince informs the pilot that he is from a small planet, the asteroid 325, talks to him about the baobabs, his planet volcanoes and the mysterious rose that grew on his planet. He also talks to him about their friendship and the lie that evoked his journey to other planets. Often puzzled by the grown-ups’ behavior, the little traveler becomes a total and eternal symbol of innocence and love, of responsibility and devotion. Through him we get to see how insightful children are and how grown-ups aren’t. Children use their heart to feel what’s really important, not the eyes. Heart-breaking, funny and thought-provoking, it is an enchanting and endlessly wise fable about the human condition and the power of imagination. A book about both childhood and adulthood, it can be read as a parable, a war story, a classic children's fairy-tale, and many more things besides: The Little Prince is a book for everyone; after all, all grown-ups were children once.

In Optionality, finance journalist Richard Meadows lays out a guide for not only becoming resilient to shocks, but positioning yourself to profit from an unpredictable world. Meadows takes us on a journey from quitting his office job at age 25, to lounging on tropical beaches living the early retirement dream, to finding and adopting an ancient philosophy for systematically pursuing the good life. Learn how to: • Find investment opportunities with open-ended upside, and maximise the chances of a 'moonshot' success • Make life-changing choices under conditions of uncertainty • Achieve the kind of financial freedom that lets you live life on your own terms • Protect

against disaster, build support networks, and create a safety buffer of resilience in every area of life

- Develop a systems approach to making your own luck

Optionality is the key to navigating an uncertain world. In this entertaining and insightful debut, Meadows delivers a timely message: optionality has never been so valuable, and only those who have it will survive and thrive.

Massive Pissed Love

Nonfiction 2001-2014 *Catapult*

Richard Hell may best be known as a punk icon, a founding member of seminal bands Television, the Heartbreakers, and The Voidoids, but for decades he’s been a prominent voice in American letters. Through his novels Go Now and Godlike, and his critically acclaimed autobiography, I Dreamed I Was a Very Clean Tramp, Hell has proven himself as a talented and insightful writer across many genres, in many forms. But one might argue that Richard’s true genius lies in shorter form as a writer on culture. "Love comes in spurts," Hell once sang, and that could well describe the intensity of his penetrating and wickedly droll criticism. Massive Pissed Love is a collection of Hell’s ruminations on art, literature, and music, among other things, that’s like a candy box of reading treats, a bag of shiny marbles, a cabinet of mementos and uncanny fetishes. However one thinks of it, it’s a joy to read from start to finish and a deeply necessary addition to the oeuvre of one of the sharpest minds and sensibilities at work today.

In Search of Deeper Things in Life *WestBow Press*

The book is about the author's testimony on how the author encountered the one true God and how life transformation took place. The book touches on the author's background life, the earlier days after encountering God, the journey with God, the special experiences with God, and the reflection of the journey after encountering God for many years. The main point in this book is to reach many people out there that wonder about God and whether there is one true living God that speaks, that leads, and guides, that heals their body and their broken heart and care for their life on earth and their future and life after death.
