Long presumed dead, Geary miraculously returned from survival hibernation a century later, reluctantly taking command of the Alliance Fleet as it faced annihilation after a disastrous battle by Syndics. Thanks to a brave rearguard action by Black Jack's relation, Captain Michael Geary, the fleet escaped destruction – but Michael was captured and has been held prisoner by the Syndics, despite the end of the war between the Alliance and Syndics which should have seen him freed. Now, Michael Geary has struck a deal with Executive Destina Aragon, leader of the Tigres, who has rebelled against the Syndic, to help them capture a "Mobile Forces Unit" – a

Syndic battleship – and help her troops get home.

Ad Astra *Jabberwocky Literary Agency, Inc.*

From the author of the New York Times–bestselling *Lost Fleet* series comes 11 action-packed stories of space exploration. In Jack Campbell's *Lost Fleet* series, Campbell's hero Captain "Black Jack" Geary explores the furthest reaches of space. Here, Campbell explores what kinds of problems mankind might face as our horizons expand. The third in a series of collections of Campbell's short stories includes some of Campbell's favorite stories, and some of his earliest. A brand-new author's note accompanies each story. "Lady Be Good" is one of Campbell's most popular stories, winner of *Analog* magazine's "AnLab" reader poll for Best Short Story and cited in Gardner Dozois's Year's Best SF. The *Lady Be Good* is an old ship, running obscure routes (not all on the right side of the law), with her loyal first officer Kilcannon and reclusive captain. When Kilcannon decides to rescue the survivors of an attack on a Vestral Company ship, a mysterious new passenger thanks him by asking difficult questions about the *Lady*, with unexpected answers. In "Kyrie Eleison," the *Verio* shipwrecked centuries ago on an out-of-the-way planet, and the descendants of the ship's survivors have gotten along as well as they can by following the orders that were passed on to them. But those orders weren't intended to govern life on the planet's surface, and when the *Bellegrange* arrives on a rescue mission, her captain will have to reckon with the unexpected social order on the planet. In "Do No Harm", a ship is so technologically advanced that it can repair itself—but turning over the keys might not be the best idea. And in "Down the

Rabbit Hole," a series of failed attempts at faster-than-light travel lead to a novel approach: sending an untested Naval captain out in a space ship to see if he can figure out what's gone wrong. With eleven stories in all, *Ad Astra* is the most multi-faceted introduction to the short fiction of Jack Campbell, and an essential complement to his bestselling book-length work.

It's Not Easy Bein' Me

A Lifetime of No Respect but Plenty of Sex and Drugs
Zondervan

An American comic icon tells the story of his second-act rise from obscurity to multimedia stardom. "When I was a kid," writes Rodney Dangerfield, "I worked tough places in show business--places like Fonzo's Knuckle Room. Or Aldo's, formerly Vito's, formerly Nunzio's. That was a tough joint. I looked at the menu. They had broken leg of lamb." For once, one of America's most beloved comic icons isn't kidding. Dangerfield has seen every aspect of the entertainment industry: the rough-and-tumble nightclubs, the backstage gag-writing sessions, the drugs, the hookers, the lousy day jobs - and the red-carpet star treatment. As he traces his route from a poor childhood on Long Island to his enshrinement as a comedy legend, he takes readers on a roller-coaster ride through a life that has been alternately touching, sordid, funny, raunchy, and uplifting - equal parts "Little Orphan Annie" and "Caligula." And unlike most celebrity autobiographers, he seems to have no qualms about delivering the unfiltered whole story, warts and all.

Dangerfield's personal story is also a rollicking show business tale, full of marquee name-droppings (Adam Sandler, Sam Kinison, Jim Carrey, Johnny Carson, Jerry Seinfeld) and good stories about same. Defying the old saws about the fleeting nature of fame and the dearth of second acts in American life, Dangerfield transformed himself from a debt-ridden aluminium-siding salesman named Jack Roy to a multimedia superstar – and stayed an icon for decades. His catchphrase – "I get no respect" – has entered the lexicon, and he remains a visible cultural presence and perennial talk-show guest. Dangerfield's hilarious and inspiring musings should thrill comedy fans and pop-culture watchers, and his second-act comeback will strike a chord with readers of all stripes. Maybe he'll even get some respect.

Borrowed Time *Jabberwocky Literary Agency, Inc.*

A collection of seven time-bending sci-fi stories by the author of the New York Times–bestselling *Lost Fleet* series—with new author's notes for each story. In "Betty Knox and Dictionary Jones in The Mystery of the Missing Teenage Anachronisms," a pair of time travelers get stuck in 1964—and in the bodies of their fifteen-year-old selves. It's a terrible time to have other time travelers looking to kill you. *SFRevu* called this story "one of the most enjoyable reads I've had in a long time." In four interlinked short stories, a pair of Temporal Interventionists try to solve some of history's greatest mysteries—from the origin of the Spanish Flu to an unexplained explosion in the world's least-inhabited region in 1908. Why were ironclad warships being developed by both the South and the North at the exact same time during the American Civil War? And why don't we know who fired the 'shot heard 'round the world,' the lone gunshot that started the American Revolution? In "Joan," a time-traveling researcher named Kate has gotten a little too close to Joan of Arc, both emotionally and temporally—and now has a chance to rescue her from being burnt at the stake. And in the final story, "Crow's Feat," a skeptical writer goes back to Elizabethan England to discover the true author of Shakespeare's plays.
