We highly appreciate the discussion on the different recommendations of the 2020 European Society of Cardiology (ESC) Guidelines for the management of acute coronary syndromes ...

Management of acute coronary syndromes in patients ...

Management of acute coronary syndrome is targeted against the effects of reduced blood flow to the afflicted area of the heart muscle, usually because of a blood clot in one of the coronary arteries, the vessels that supply oxygenated blood to the myocardium. This is achieved with urgent hospitalization and medical therapy, including drugs that relieve chest pain and reduce the size of the infarct, and drugs that inhibit clot formation; for a subset of patients invasive measures are also employed
