The Bolex H-8 was introduced shortly after the H-16 and shared similar features. Unlike the H-16, however, it does not appear to have ever been manufactured with the Paillard-Bolex logo embossed into the leather or without a critical visual focuser. If you have information to suggest otherwise, please let me know.

Q: [6.4] What is a "Bolex model H16-F25"? A: This description sometimes appears on eBay and elsewhere. It is not a camera model, but rather an inscription on the front of a trifocal viewfinder that is used to identify the default focal length setting (You may also see an "H8-F12.5" occasionally).

Bolex Collector | Frequently Asked Questions

Opening up on Digiprimes will only make them sharper. Theyre close to diffraction limited and optimized for shooting wide open, just like Ultra 16. Both are sharper than Master Primes and absolutely need diffusion on closeups unless youre after an unnaturally harsh image. Lenses for smaller forma...

Notes and Comments. The Bolex H-16 S camera was a non-reflex, turret style camera that incorporated all changes made to the model H since the introduction of the H-16 T.However, unlike the H16 T, the S series included a built in filter slot similar to the H16 Supreme.A new logo plate appeared on the body with the words "H16 S".
