The 3 column ledger account provides information on the balance on the account after each debit or credit entry has been posted, for this reason it is often known as the running balance method. This is in contrast to the period balance method in which account balances are calculated only at the end of the accounting period.

This journal entry affects 2 accounts (Cash and Accounts Receivable), so you must make entries to both of those ledger accounts. Turn to the Cash page of your ledger. In the left column (which is used for recording debits), write the date of the transaction, and then write the amount. In this example, the amount is \$500.
