Biology Student Book

Edexcel International Gcse

Collins International GCSE Biology provides complete coverage of the new Edexcel International GCSE specification for Biology and is packed full of questions, in depth content, practical investigative skills features and more.

Advanced Biology Nelson Thornes

The major new course text has been written by experienced authors to provide coverage of the Advanced Subsidiary (AS) and Advanced GCE Biology and Human Biology specifications in a single book. Advanced Biology provides clear, well-illustrated information, which will help develop a full understanding of biological structure and function and of relevant applications. The topics have been carefully organised into parts, which give a logical sequence to the book. This new text has been developed to replace the best-selling titles Biology: Principles and Processes and Biology, A Functional Approach. Features include: full-colour design with clear diagrams and photographs; up-to-date information on biotechnology, health, applied genetics and ecology; clearly written text using the latest Institute of Biology terminology; a useful summary and a bank of practice questions at the end of every chapter; support boxes help bridge the gap from GCSE or equivalent courses; extension boxes providing additional depth of content - some by guest authors who are experts in their field; and a comprehensive index so you can quickly locate information with ease. There is also a website providing additional support that you can access directly at www.advancedbiolgy.co.uk.

Edexcel International GCSE Biology Pearson Education India

Offers complete coverage of the specification Includes free student ActiveBook CD-ROM Links to additional support and teacher support are provided online directly from Edexcel

Biology with Human Biology Nelson Thornes

Make the Grade in AS Biology with Human Biology has been specially written to give students comprehensive exam support for senior secondary level Biology and Human Biology. It is a comprehensive revision guide for students that includes a bank of activities and questions for use throughout the course, with exam questions, including synoptic questions, to help students fully prepare for examinations.

IGCSE Biology Hodder Education

This highly respected and valued textbook has been the book of choice for Cambridge IGCSE students since its publication. This second edition, complete with CD-ROM, continues to provide comprehensive, up-to-date coverage of the core and extended curriculum topics specified in the Cambridge IGCSE Biology syllabus. The book is supported by a CD-ROM containing extensive revision and exam practice questions, background information and reference material.

Aqa Biology Synoptic Essays

For the New Exam Starting 2016 Createspace Independent Publishing Platform

The only book written for the new (first sitting 2017) AQA Biology exam. This book gives clear, concise and updated advice for every title found in the last 20 years and complete A* essays for 25 of them. On top of this are example paragraphs, key tips and how to organise your essay to get the most marks. This book has evolved over a period of years. I am fortunate to have had a number of truly excellent students (Oxbridge and full UMS). Over the years I have ordered the transcript of all our school's A* papers and collated the essays. Where there were gaps I gave these students the past-paper essay titles and mark schemes and paid them to write 'model essays'. Then, as a trained marker, I edited them all to make sure they were written to an A* standard. A colleague of mine, who has also marked for AQA, then went through them as a third independent determination of their grade. We have used this collection of essays in our school for a number of years with fantastic results. With the advent of the new specification, I have revisited them and made changes to reflect the new content. Topics that are no longer at A-level have been removed and new content added, which has meant a number of particular large changes in the field of Ecology. This has been a surprisingly onerous undertaking, but I am very proud of the result. Someone then suggested to me that I should publish my work and this is the product - an analysis of over 40 titles and 25 A* essays.

Human Biology and Health Studies Nelson Thornes

Develops student' learning skills using questions and summaries at the end of each chapter and examination questions. Clear, readable text enhanced with attractive colour illustrations and clearly labelled diagrams for ease of understanding. Help students with assessment and independent progress checking through examination questions and self-check answers. Gives support with easy to follow practicals.
