Mission Control From Mercury to Apollo 13 and Beyond *Simon and Schuster*

This memoir of a veteran NASA flight director tells riveting stories from the early days of the Mercury program through Apollo 11 (the moon landing) and Apollo 13, for both of which Kranz was flight director. Gene Kranz was present at the creation of America's manned space program and was a key player in it for three decades. As a flight director in NASA's Mission Control, Kranz witnessed firsthand the making of history. He participated in the space program from the early days of the Mercury program to the last Apollo mission, and beyond. He endured the disastrous first years when rockets blew up and the United States seemed to fall further behind the Soviet Union in the space race. He helped to launch Alan Shepard and John Glenn, then assumed the flight director's role in the Gemini program, which he guided to fruition. With his teammates, he accepted the challenge to carry out President John F.

Kennedy's commitment to land a man on the Moon before the end of the 1960s. Kranz recounts these thrilling historic events and offers new information about the famous flights. What appeared as nearly flawless missions to the Moon were, in fact, a series of hair-raising near misses. When the space technology failed, as it sometimes did, the controllers' only recourse was to rely on their skills and those of their teammates. He reveals behind-the-scenes details to demonstrate the leadership, discipline, trust, and teamwork that made the space program a success. A fascinating firsthand account by a veteran mission controller of one of America's greatest achievements, Failure is Not an Option reflects on what has happened to the space program and offers his own bold suggestions about what we ought to be doing in space now.

Failure Is an Option

An Attempted Memoir *Penguin*

"Writing this funny requires immense talent." —AV Club H. Jon Benjamin—the lead voice behind Archer and Bob's Burgers—helps us all feel a little better about our own failures by sharing his own in a hilarious memoir-ish chronicle of failure. Most people would consider H. Jon Benjamin a comedy show business success. But he'd like to remind everyone that as great as success can be, failure is also an option. And maybe the best option. In this book, he tells stories from his own life, from his early days ("wherein I'm unable to deliver a sizzling fajita") to his romantic life ("how I failed to quantify a threesome") to family ("wherein a trip to P.F. Chang's fractures a family") to career ("how I failed at launching a kid's show"). As Jon himself says, breaking down one's natural ability to succeed is not an easy task, but also not an insurmountable one. Society as we know it is, sadly, failure averse. But more acceptance of failure, as Jon sees it, will go a long way

to making this world a different place . . . a kinder, gentler place, where gardens are overgrown and most people stay home with their pets. A vision of failure, but also a vision of freedom. With stories, examples of artistic and literary failure, and a powerful can't-do attitude, *Failure Is an Option* is the book the world doesn't need right now but will get regardless.

Failure Is Not An Option

My Story of Business, Survival, And Success in Life

Do you dream about starting your own business, but don't know where to begin? Is your business stalled and in need of a new source of inspiration? Are you looking for a no-nonsense, practical guidebook for making your professional aspirations a reality? Then **FAILURE IS NOT AN OPTION** is the book for you. After his incredible escape from war-torn Bosnia and subsequent arrival in the United States as a refugee, violinist Zeljko Pavlovic went on to start his own business and build a world-class career in music. After he and his wife opened Vivaldi Music Academy in 2013, the school became an overnight sensation, and since then it has grown into one of the largest music schools of its kind. Zeljko's incredible story and his unique business acumen has earned him international attention--and now he is telling that story in his own words for the first time. Having seen first-hand the positive impact of music on individuals and communities, Mr. Pavlovic opened the Vivaldi Music Academy in 2013 to offer innovative and engaging music programs to the greater Houston area. In 2014 the Vivaldi Music Academy was named National Music School of the Year by a peer group of over 250 music

school owners whom Mr. Pavlovic now serves as a mentor and business coach. He has served on the board of directors for the Houston Metropolitan Chamber of Commerce, and was recently named as an honoree in Houston Business Journal's "40 under 40 Class of 2015."

Failure is Not an Option

Failure's Not an Option

In the thirty years I spent in Special Weapons and Tactics (SWAT), I participated in some of the most highly publicized events in law enforcement history, which generated national and even international attention, including the takedown of the DC snipers. I was also involved in a hostage rescue incident by a lone-wolf domestic terrorist who the FBI determined was "the first suicide bomber with hostages in the United States" at the Discovery Headquarters Building in Silver Spring, Maryland, and the capture of a violent group of serial bank robbers featured on John Walsh's America's Most Wanted. These events and the 4,500 raids and barricades I participated in over my career helped to prepare me for the life-threatening medical incidents that

transpired beginning in 2010 and continue to today. At the height of my career as a SWAT commander, I was struck down by two diseases that at the time were deemed terminal with no available cure: multiple myeloma cancer and cardiac amyloidosis. Doctors told me I had less than two years to live-at best. I prepared for what would be the greatest fight of my life. A career in SWAT had trained me for this fight, with its quarterly fitness tests, numerous high-risk operations, and the mindset to persist against seemingly insurmountable odds. I overcame many obstacles, including "coding" in 2013 during a stem- cell transplant that required chest compressions and saline to bring me back to life and then a stroke precipitated in 2015 by the chemotherapy I was undergoing to forestall the myeloma and amyloidosis. I applied the same expectations that I had of the SWAT Team to myself, always telling the team, "Never complain, never quit, and the mission comes first. Failure's not an option as it relates to the mission." My mission is simple: survive. Eight years have passed since my initial diagnosis, and I am still alive and in remission, and by all medical accounts, I have defied the odds. This memoir consists of three elements: high-profile SWAT operations; my medical journey; and lessons on fitness, diet, and drug routines that have helped me manage these medical obstacles and improve my quality of life. My hope is that by sharing these incidents in SWAT and the medical odyssey that followed, I can help others manage their illnesses, improve their quality of life, and enjoy (directly or vicariously) the high-speed SWAT experiences and the medical risks that my medical team took for me.

Can't Is Not an Option

My American Story *Penguin*
From the former United States

Ambassador to the United Nations, an inspirational memoir of family, hope, and the power of the American Dream. Decades before their daughter surprised the nation by becoming governor of South Carolina, Nikki Haley's parents had a dream. Ajit and Raj Randhawa were well-educated, well-off Sikhs in the Punjab region of India. But despite their high social status, the Randhawas wanted more for their family-the opportunities that only America could offer. So they left behind all they had known and settled in Bamberg, South Carolina (population: 2,500). As the first Indian family in a small Southern town in the early 1970s, the Randhawas faced ignorance, prejudice, and sometimes blatant hostility. Nikki remembers stopping at a roadside produce stand with her father, who always wore his traditional Sikh turban. Within minutes, two police cars pulled to make sure they weren't thieves. But the Randhawas taught their children that they should never think of themselves as victims. They stressed that if you work hard and stay true to yourself, you can overcome any obstacle. The key is believing that can't is not an option. The family struggled to make ends meet while starting a clothing business in their living room, eventually growing it into a multimillion-dollar success. At age twelve, Nikki started to do the bookkeeping and taxes after school. After graduating from college and entering the business world, she watched business owners like her parents battle government bureaucracy and overregulation. Her frustration inspired her to get into politics and run for the state legislature. That first campaign, against an entrenched incumbent, led to racial and religious slurs and threats-but Haley, like her

parents, refused to back down. She won on a promise to fight for reform, lean budgets, and government accountability, which is exactly what she did-much to the dismay of South Carolina's old guard politicians. Soon she had a reputation as a conservative leader who could get things done. In the same state where her family was once ridiculed, she inspired a diverse grassroots following. In November 2010 she was elected South Carolina's first female governor and first nonwhite governor, and only the second Indian American governor in the country. Haley's story, as told firsthand in this inspiring memoir, is a testament to the power of determination, faith, and family. And it's proof that the American Dream is still strong and true in the twenty-first century.

Safe Is Not An Option

Overcoming The Futile Obsession With Getting Everyone Back Alive That Is Killing Our Expansion Into Space *Interglobal Media LLC*

The history of exploration and establishment of new lands, science and technologies has always entailed risk to the health and lives of the explorers. Yet, when it comes to exploring and developing the high frontier of space, the harshest frontier ever, the highest value is apparently not the accomplishment of those goals, but of minimizing, if not eliminating, the possibility of injury or death of the humans carrying them out. For decades since the end of Apollo, human spaceflight has been very expensive and relatively rare (about 500 people total, with a death rate of about 4%), largely because of this risk aversion on the part of the federal government and culture. From the Space Shuttle, to the International Space Station, the new commercial crew program to deliver astronauts to it, and the regulatory approach for commercial spaceflight providers, our attitude toward safety has been fundamentally irrational, expensive and even dangerous, while generating minimal accomplishment for maximal cost. This book entertainingly explains why this means that we must regulate passenger safety in the new commercial spaceflight industry with a lighter hand than many might instinctively prefer, that NASA must more carefully evaluate

rewards from a planned mission to rationally determine how much should be spent to avoid the loss of participants, and that Congress must stop insisting that safety is the highest priority, for such insistence is an eloquent testament to how unimportant they and the nation consider the opening of this new

Failure... Is Not an Option! *Independently Published*

Failure...Is NOT an Option is based on the 30 causes of failure as they were outlined in Napoleon Hills best selling 1937 version of Think and Grow Rich. This book has been an inspiration to millions of readers worldwide that sought success in many areas of their lives. In this book it is my desire to spell out for the reader that there really is no such thing as failure in life, but simply learning experiences. You see failure or the perceived failures in life are simply that what we hold on our mind. But when we adjust our thinking to eliminate the world failure from our vocabulary then and only then can we accept that each temporary setback that we experience in life is merely a learning experience. If you accept that thinking then you simply cannot fail at anything in your life. After all, life is a learning experience and each day as we evolve in that learning process of life we can only improve and get better. Thomas Edison the prominent inventor was once credited with saying after he failed over 10,000 times while trying to perfect the incandescent light bulb, "I have not failed. I have just found 10,000 ways

that did not work."

Failure is Not an Option

A Memoir *iUniverse*

Author Hydn Rousseau's father walked out on him, his three siblings, and his mother when Rousseau was five years old. Most of his daily meals as a young man consisted of bread and sugar water. He didn't graduate from high school. He was convicted for selling drugs and served eight and a half years in prison. But that didn't stop Rousseau from accomplishing his goals and dreams. In *Failure is Not an Option*, he shares his story of growing up in poverty and how he didn't allow himself to become a victim or blame others for his circumstances. He stopped making excuses and took full responsibility for his actions. Twenty years later, he is a successful family and businessman who volunteers and mentors in the community. A story of perseverance, dedication, and personal transformation, this memoir aims to help others tap into their greatness to accomplish goals and dreams.

Interdisciplinary and Transdisciplinary Failures

Lessons Learned from Cautionary Tales *Routledge*

Unlike other volumes in the current literature, this book provides insight for interdisciplinary and transdisciplinary researchers and practitioners on what doesn't work. Documenting detailed case studies of project failure matters, not only as an illustration of experienced challenges but also as projects do not always follow step-by-step protocols of preconceived and theorised processes. Bookended by a framing introduction by

the editors and a conclusion written by Julie Thompson Klein, each chapter ends with a reflexive section that synthesizes lessons learned and key take-away points for the reader. Drawing on a wide range of international case studies and with a strong environmental thread throughout, the book reveals a range of failure scenarios for interdisciplinary and transdisciplinary projects, including:

- Projects that did not get off the ground;
- Projects that did not have the correct personnel for specified objectives;
- Projects that did not reach their original objectives but met other objectives;
- Projects that failed to anticipate important differences among collaborators.

Illustrating causal links in real life projects, this volume will be of significant relevance to scholars and practitioners looking to overcome the challenges of conducting interdisciplinary and transdisciplinary research.

How Smart Leaders, Teams, and Entrepreneurs Put Failure to Work

John Wiley & Sons

Leverage the power of failure in your organization Nobody wants to fail, but failure is a fact of life. Most of us treat it as a regrettable, even shameful, event best overlooked. In truth, failure can be a game-changing strategic resource that can help you and your organization achieve the greater success you crave. *The Other "F" Word* shows how successful leaders and teams are putting failure to work every day - to re-engage employees, spark innovation and accelerate growth. Authors Danner and Coopersmith - with their rare blend of senior-level executive experience, global advising, teaching acumen and cross-discipline perspective - share these valuable new practices, and show how

they can improve results across your organization. Based on exclusive interviews with prominent leaders and insightful examples from their own in-depth work, the book features a practical seven-stage framework to liberate failure as a force to advance your leadership agenda. After all, everyone creates and confronts failure on a daily basis. Why not use it to your advantage? The Other "F" Word shows you how to: Start an open, productive conversation about failure across your organization Reduce the fear of failure that stifles initiative, creativity and engagement Anticipate, prepare for and respond to failure, so you can leverage it when it happens Harness failure as a catalyst to drive innovation, improve performance and strengthen culture Failure's like gravity – pervasive and powerful. Whether you're a leader or team member of a startup, a growing business, or an established enterprise, failure is today's lesson for tomorrow. Let The Other "F" Word show you how to apply this lesson and take your company where it needs to go.

Hardship and Obstacles Are the Foundation to Success Dion Wingate (Auto Pilot Revised) Linel D Wingate

Self-awareness is having a clear perception of your personality, including strengths, weaknesses, thoughts, beliefs, motivation, and emotions. Self-awareness allows you to understand

other people, how they perceive you, your attitude and your responses to them in the moment. Although it took Dion to hit rock bottom to start exploring becoming self-aware, that is where the shift began for him to be able to change his future. Ironically, I believe his soul was so tortured by not being able to self-medicate with drugs and alcohol and also not being allowed to be swayed because of his incarceration by the circumstances and the people in his life to distract him from his reality that ultimately forced him to face the stone hard cold truth of the life he was living.
