Linguistic Fundamentals for Natural Language Processing ...

Linguistic Fundamentals for Natural Language Processing: 100 Essentials from Morphology and Syntax. Abstract: Many NLP tasks have at their core a subtask of extracting the dependencies—who did what to whom—from natural language sentences. This task can be understood as the inverse of the problem solved in different ways by diverse human languages, namely, how to indicate the relationship between different parts of a sentence.

Linguistic Fundamentals for Natural Language Processing ...

Meaning is a fundamental concept in Natural Language Processing (NLP), in the tasks of both Natural Language Understanding (NLU) and Natural Language Generation (NLG). This is because the aims of these fields are to build systems that understand what people mean when they speak or write, and that can produce linguistic strings that successfully express to people the intended content.
