In engineering, technical documentation refers to any type of documentation that

describes handling, functionality and architecture of a technical product or a product under development or use. The intended recipient for product technical documentation is both the (proficient) end user as well as the administrator / service or maintenance technician. In contrast to a mere "cookbook" manual ...

Technical documentation - Wikipedia

Introductions The introduction is one of the most important sections of a report—or, for that matter, any document—but introductions are often poorly written. One reason may be that people misunderstand the purpose of introductions. An introduction introduces readers to the report and not necessarily, or only minimally, to the

subject matter.
