Theory Construction and Model-Building Skills

This book can serve as a stand-alone text in courses devoted to theory construction or as a supplemental text in more general courses on scientific and research methods. The new companion website for the second edition is invaluable; it presents useful exercises to help students build working knowledge of the concepts and strategies in the text."--Hart Blanton, PhD, Department of Communication ...

Theory Construction and Model-Building Skills: A Practical ...

Theory construction fundamentally relies on six relationship types, including direct effects, indirect effects, moderated effects, reciprocal effects, spurious effects and unanalyzed relationships. Once specified, each type of effect can be represented mathematically, thereby translating a path diagram into a set of (linear) equations.

Theory Construction and Model-Building Skills, Second ...

Theory Construction. Theory construction is an important feature of any science. In psychology, a theory is a proposed explanation for the causes of behaviour. To be scientific, a theory needs to be a logically organized set of propositions that defines events, describes relationships among events, and explains and predicts the occurrence of events.

Theory Construction | Topics | Psychology | tutor2u

Based on concepts from Sociological Theory and specifically of Analytical Sociology, students will get experience in working with theoretical constructs and relationships in order to generate, adapt and build on theoretical models. The main focus is on causal analysis and contemporary approach to explanation in social science.

Theory Construction and Model-building Skills: A Practical ...

Theory construction is the process of formulating and assembling components of theories into

coherent wholes, or the process of revising and expanding theories in light of logical, semantic, and empirical analyses. Every theory in sociology has gone through some type of construction process. However, the “theory” label has traditionally been used to refer to a variety of rhetorical objects, constructed according to criteria that are sometimes mutually incompatible, at other times ...
