The Learning and Teaching of Geometry in Secondary Schools ...

These advances in algebra strongly influenced the curricular reforms that began in the 1960s, one of the results of which was that the amount of geometry included in school curricula around the world was reduced, sometimes severely so, especially for pupils aged 11 –19. Recently, however, there has begun a renaissance in geometry.

Making Space for Geometry in Primary Mathematics

Geometry is one of the six mathematical domains addressed by the national Common Core State Standards. By July of 2013, these standards had been adopted by 45 of 50 states and the District of Columbia. Students in grades nine through twelve study Euclidean geometry synthetically, which means without coordinates, and analytically, which means with coordinates.
