DOWNLOAD REVOLT AGAINST THE MODERN WORLD PDF

Welcome to our community, where document availability is facilitated and convenient. With our PDF downloads, you can access important information with simply a few clicks. Bid farewell to the trouble of literally getting documents or struggling with inappropriate data layouts. By joining our area, you gain access to an extensive collection of PDF file **Revolt Against The Modern World ready for download**.

At our core, we focus on convenience and ease of access for our customers. Whether you require research products or expert records, we have you covered. Our simple and efficient download process makes sure that you can promptly obtain the PDF data Revolt Against The Modern World you need. Our company believe that everyone must have access to the details they require, and our area is right here to make it take place.

With PDF files, you can delight in various benefits, including very easy analysis and navigation, and compatibility across various devices. We comprehend that time is precious, and we wish to aid you take advantage of it. By downloading Revolt Against The Modern World, you can enhance your work and research study, and eventually, attain your goals.

Join us today and begin downloading Revolt Against The Modern World PDF. Allow us make your document ease of access journey a swift and easy one.

JOIN OUR NEIGHBORHOOD

Invite to our friendly community committed to boosting paper access through PDF downloads. By coming to be a component of our community, you'll have accessibility to a considerable collection of PDF documents Revolt Against The Modern World prepared for download.

Our area is committed to making file access very easy and swift for everybody. It matters not if you're a trainee, scientist, or a specialist. Our PDF downloads are made to support your job and study and keep you in advance of the curve.

Joining our area is very easy. All you have to do is sign up and become a participant. You'll instantaneously access to our substantial collection, which is frequently upgraded with brand-new files.

Our area is a one-stop-shop for all your PDF requires including **Revolt Against The Modern World**. You can conveniently surf and search for data using the search bar and group filters. We provide a wide range of classifications, consisting of education, research study, organization, and extra, ensuring that you can locate the PDF Revolt Against The Modern World you need in no time at all.

Join our community today and make the most of the benefits that come with being a part of a team devoted to improving paper access via very easy and quick PDF downloads.

EASY AND SWIFT DOWNLOAD PROCESS OF REVOLT AGAINST THE MODERN WORLD

At our community, we recognize that time is valuable. That's why we've streamlined the download procedure, making it both easy and rapid. With simply a few clicks, you can have your preferred PDF Revolt Against The Modern World downloaded and install and all set to make use of.

Our internet site is developed to prioritize benefit and speed, so you can quickly get access to the files Revolt Against The Modern World. You will not have to squander your time identifying difficult download procedures or take care of prolonged waits. Our simple interface makes sure a smooth experience.

To make points also simpler, we have actually organized our PDF data in rational categories, making it simple to discover what you're searching for. Our area members always value the efficiency we offer, and we know you will certainly also.

CONVENIENCES OF PDF INFOS REVOLT AGAINST THE MODERN WORLD

At **our community**, we understand the importance of ease when it involves accessing and **sharing Revolt Against The Modern World documents**. That's why we extremely advise using PDF files.

PDFs use numerous comforts that make them a go-to option for several people and businesses. To start with, PDFs give a constant and reliable layout across different devices. Whether you're making use of a computer system, tablet, or mobile phone, you can be confident that the document will certainly look the exact same on each tool.

One more ease of PDFs is the capability to press large data right into a smaller dimension without jeopardizing on quality. This makes it simple to share Revolt Against The Modern World documents through email or various other electronic ways, without worrying about exceeding file dimension limitations.

PDFs also supply simple analysis and navigating features. You can focus and out of the record to readjust the text dimension as per your preference. Furthermore, PDFs allow you to search for specific search phrases within the paper and book mark important pages for future reference.

Last but not least, PDFs give outstanding security features for sensitive files. You can password-protect your PDF Revolt Against The Modern World and stop unauthorized gain access to or editing and enhancing.

At **our neighborhood**, we identify the conveniences that PDF data offer our daily lives. That's why we provide a substantial collection of PDF files for download, making it hassle-free for you to access vital records including Revolt Against The Modern World whenever you need them.

Join our area and experience the ease of downloading PDF files today!

IMPROVE YOUR JOB AND RESEARCH STUDY

Are you trying to find methods to enhance your work or research study materials? Our community has you covered. By downloading Revolt Against The Modern World PDF files from our library, you can boost your tasks and projects with useful resources within your reaches.

Whether you are a student trying to find educational products or a professional seeking research posts and records, our PDF downloads give an easy means to access the file Revolt Against The Modern World you need. Plus, with our focus on paper availability, you can be certain that our documents are easy to check out and browse for all customers.

However that's not all - our PDF data also use a series of benefits that can enhance your job and research study experience. With compatibility across various devices, you can access your data on-the-go or at home on your preferred gadget. And with easy printing alternatives, you can promptly and comfortably move your PDF paper Revolt Against The Modern World to paper if needed.

So why wait? Enhance your job and study with our PDF downloads today. Join our area and access to a large library of beneficial resources that can help you achieve your goals.

START DOWNLOADING REVOLT AGAINST THE MODERN WORLD PDF TODAY

At our neighborhood, our company believe in making paper ease of access very easy and quick for everybody. That's why we're thrilled to welcome you to begin downloading Revolt Against The Modern World PDF today.

Our substantial collection of PDF documents covers a variety of subjects and markets, including study products, academic sources, and expert files. With just a few clicks, you can access the details you need to improve your work and research.

Our simple and speedy download procedure implies you can quickly obtain the PDF documents Revolt Against The Modern World you require, with no unneeded headache. Whether you're on a computer or mobile phone, our platform is made to be suitable with all gadgets, ensuring you can access your downloads from anywhere.

We understand the conveniences that PDF submits offer, from simple analysis and navigating to compatibility across various tools. That's why we're devoted to giving you with the most effective experience feasible when it pertains to downloading Revolt Against The Modern World PDFs.

Joining our area is very easy and includes a host of advantages. Our participants get to a substantial collection of PDF data all set for download and can add to the neighborhood by publishing their very own apply for others to utilize.

So why wait? Begin downloading and install Revolt Against The Modern World PDF today and experience the convenience and benefit of accessing a vast array of valuable documents at your fingertips.

Revolt Against the Modern World *Simon and Schuster*

With unflinching gaze and uncompromising intensity Julius Evola analyzes the spiritual and cultural malaise at the heart of Western civilization and all that passes for progress in the modern world. As a gadfly, Evola spares no one and nothing in his survey of what we have lost and where we are headed. At turns prophetic and provocative, Revolt against the Modern World outlines a profound metaphysics of history and demonstrates how and why we have lost contact with the transcendent dimension of being. The revolt advocated by Evola does not resemble the familiar protests of either liberals or conservatives. His criticisms are not limited to exposing the mindless nature of consumerism, the march of progress, the rise of technocracy, or the dominance of unalloyed individualism, although these and other subjects come under his scrutiny. Rather, he attempts to trace in space and time the remote causes and processes that have exercised corrosive influence on what he considers to be the higher values, ideals, beliefs, and codes of conduct--the world of Tradition--that are at the foundation of Western civilization and described in the myths and sacred literature of the Indo-Europeans. Agreeing with the Hindu philosophers that history is the movement of huge cycles and that we are now in the Kali Yuga, the age of dissolution and decadence, Evola finds revolt to be the only logical response for those who oppose the materialism and ritualized meaninglessness of life in the twentieth century. Through a sweeping study of the structures, myths, beliefs, and spiritual traditions of the major Western civilizations, the author compares the characteristics of the modern world with those of traditional societies. The domains explored include politics, law, the rise and fall of empires, the history of the Church, the doctrine of the two natures, life and death, social institutions and the caste system, the limits of racial theories, capitalism and communism, relations between the sexes, and the meaning of warriorhood. At every turn Evola

challenges the reader’s most cherished assumptions about fundamental aspects of modern life. A controversial scholar, philosopher, and social thinker, JULIUS EVOLA (1898-1974) has only recently become known to more than a handful of English-speaking readers. An authority on the world’s esoteric traditions, Evola wrote extensively on ancient civilizations and the world of Tradition in both East and West. Other books by Evola published by Inner Traditions include Eros and the Mysteries of Love, The Yoga of Power, The Hermetic Tradition, and The Doctrine of Awakening.

Revolt Against the Modern World *Inner Traditions*

No idea is as absurd as the idea of progress, which together with its corollary notion of the superiority of modern civilization, has created its own “positive” alibis by falsifying history, by insinuating harmful myths in people’s minds, and by proclaiming itself sovereign at the crossroads of the plebeian ideology from which it originated. In order to understand both the spirit of Tradition and its antithesis, modern civilization, it is necessary to begin with the fundamental doctrine of the two natures. According to this doctrine there is a physical order of things and a metaphysical one; there is a mortal nature and an immortal one; there is the superior realm of “being” and the inferior realm of “becoming.” Generally speaking, there is a visible and tangible dimension and, prior to and beyond it, an invisible and intangible dimension that is the support, the source, and the true life of the former. --from chapter one This present “civilization” . . . has brought to all strata of society and to all races the following “gifts”: restlessness, dissatisfaction, resentment, the need to go further and faster, and the inability to possess one’s life in simplicity, independence, and balance. Modern civilization has pushed man onward; it has generated in him the need for an increasingly greater number of things; it has made him more and more insufficient to himself and powerless. --from chapter thirty-five Even though it may be destined to disappear, modern civilization is certainly not the first to become extinct, nor is it the one after which none will follow. In the life of what is conditioned by space and time, lights are continually being put out and kindled again; cycles end and new ones begin. As I have said, the doctrine of the cycles was known to traditional man, and only the ignorance of modern man has induced him to believe that his civilization, which is characterized by the deepest roots in the temporal and contingent element, will enjoy a different and privileged fate. --from the conclusion With unflinching gaze and uncompromising intensity Julius Evola analyzes the spiritual and cultural malaise at the heart of Western civilization and all that passes for progress in the modern world. As a gadfly, Evola spares no one and nothing in his survey of what we have lost and where we are headed. At turns prophetic and provocative, Revolt against the Modern World outlines a profound metaphysics of history and demonstrates how and why we have lost contact with the transcendent dimension of being. The revolt advocated by Evola does not resemble the familiar protests of either liberals or conservatives. His criticisms are not limited to exposing the mindless nature of consumerism, the march of progress, the rise of technocracy, or the dominance of unalloyed individualism, although these and other subjects come under his scrutiny. Rather, he attempts to trace in space and time the remote causes and processes that have exercised corrosive influence on what he considers to be the higher values, ideals, beliefs, and codes of conduct--the world of Tradition--that are at the foundation of Western civilization and described in the myths and sacred literature of the Indo-Europeans. Agreeing with the Hindu philosophers that history is the movement of huge cycles and that we are now in the Kali Yuga, the age of dissolution and decadence, Evola finds revolt to be the only logical response for those who oppose the materialism and ritualized meaninglessness of life in the twentieth century. Through a sweeping study of the structures, myths, beliefs, and spiritual traditions of the major Western civilizations, the author compares the characteristics of the modern world with those of traditional societies. Other books by Evola published by Inner Traditions include Eros and the Mysteries of Love, The Yoga of Power, The Hermetic Tradition, and The Doctrine of Awakening.

Revolt Against the Modern World

Defenders of God

A defining analysis of religious fundamentalism. For sale in the U.S., its dependencies, & Canada only .

Men Among the Ruins *Simon and Schuster*

Julius Evola's masterful overview of the political and social manifestations of our time, the "age of decline" known to the Hindus as the Kali Yuga. • Reveals the occult war that underlies the crises that have become a prevailing feature of modern life. • Includes H. T. Hansen's definitive essay on Evola's political life and theory. Men Among the Ruins is Evola's frontal assault on the predominant materialism of our time and the mirage of progress. For Evola and other proponents of Traditionalism, we are now living in an age of increasing strife and chaos: the Kali Yuga of the Hindus or the Germanic Ragnarok. In such a time, social decadence is so widespread that it appears as a natural component of all political institutions. Evola argues that the crises that dominate the daily lives of our societies are part of a secret occult war to remove the support of spiritual and traditional values in order to turn man into a passive instrument of the powerful. Evola is often regarded as the godfather of contemporary Italian fascism and right-wing radical politics, but attentive examination of the historical record--as provided by H. T. Hansen's definitive introduction--reveals Evola to be a much more complex figure. Though he held extreme right-wing views, he was a fearless critic of the Fascist regime and preferred a caste system based on spirituality and intellect to the biological racism championed by the Nazis. Ultimately, he viewed the forces of history as comprised by two factions: "history's demolition squad" enslaved by blind faith in the future and those individuals whose watchword is Tradition. These latter stand in this world of ruins at a higher level and are capable of letting go of what needs to be abandoned in order that what is truly essential not be compromised.

Against the Modern World *Oxford University Press*

Against the Modern World is the first history of Traditionalism, an important yet surprisingly little-known twentieth-century anti-modern movement. Comprising a number of often secret but sometimes very influential religious groups in the West and in the Islamic world, it affected mainstream and radical politics in Europe and the development of the field of religious studies in the United States, touching the lives of many individuals. French writer Rene Guenon rejected modernity as a dark age and sought to reconstruct the Perennial Philosophy - the central truths behind all the major world religions. Guenon stressed the urgent need for the West's remaining spiritual and intellectual elite to find personal and collective salvation in the surviving vestiges of ancient religious traditions. A number of disenchanted intellectuals responded to his call. In Europe, America, and the Islamic world, Traditionalists founded institutes, Sufi brotherhoods, Masonic lodges, and secret societies. Some attempted unsuccessfully to guide Fascism and Nazism along Traditionalist lines; others later participated in political terror in Italy. Traditionalist ideas were the ideological cement for the alliance of anti-democratic forces in post-Soviet Russia, and in the Islamic world entered the debate about the relationship between Islam and modernity. Although its appeal in the West was ultimately limited, Traditionalism has wielded enormous influence in religious studies, through the work of such Traditionalists as Ananda Coomaraswamy, Huston Smith, Mircea Eliade, and Seyyed Hossein Nasr.

Eros and the Mysteries of Love *Inner Traditions / Bear & Co*

A controversial philosopher and critic of modern Western civilization, Julius Evola (1898-1974) writes about the mystical and spiritual expression of sexual love. This in-depth study explores the sexual rites of sacred traditions, and shows how religion, mysticism, folklore, and mythology all contain erotic forms in which the deep potentialities of human beings are recognized.

Ride the Tiger *Simon and Schuster*

Julius Evola’s final major work, which examines the prototype of the human being who can give absolute meaning to his or her life in a world of dissolution • Presents a powerful criticism of the idols, structures, theories, and illusions of our modern age • Reveals how to transform destructive processes into inner liberation The organizations and institutions that, in a traditional civilization and society, would have allowed an individual to realize himself completely, to defend the principal values he recognizes as his own, and to structure his life in a clear and unambiguous way, no longer exist in the contemporary world. Everything that has come to predominate in the modern world is the direct antithesis of the world of Tradition, in which a society is ruled by principles that transcend the merely human and transitory. Ride the Tiger presents an implacable criticism of the idols, structures, theories, and illusions of our dissolute age examined in the light of the inner teachings of indestructible Tradition. Evola identifies the type of human capable of “riding the tiger,” who may transform destructive processes into inner liberation. He offers hope for those who wish to reembrace Traditionalism.

Summary of Julius Evola's Revolt Against the Modern World *Everest Media LLC*

Please note: This is a companion version & not the original book. Sample Book Insights: #1 The fundamental doctrine of the two natures is that there is a physical order of things and a metaphysical one. There is a mortal nature and an immortal one. There is a superior realm of being and an inferior realm of becoming. #2 The world of being and the world of becoming affect things, demons, and men. Every hypostatic representation of these two regions, whether expressed in astral, mythological, theological, or religious terms, reminded traditional man of the existence of the two states. #3 The traditional world believed that spirituality was something beyond life and death. It believed that mere physical existence is meaningless unless it approximates the higher world or that which is more than life. #4 Every traditional civilization has a class of people who, by virtue of their innate or acquired superiority over the human condition, embody within the temporal order the living and efficacious presence of a power that comes from above.

Fascism and the Masses *Routledge*

Highlighting the "mass" nature of interwar European fascism has long become commonplace. Throughout the years, numerous critics have construed fascism as a phenomenon of mass society, perhaps the ultimate expression of mass politics. This study deconstructs this long-standing perception. It argues that the entwining of fascism with the masses is a remarkable transubstantiation of a movement which understood and presented itself as a militant rejection of the ideal of mass politics, and indeed of mass society and mass culture more broadly conceived. Thus, rather than "massifying" society, fascism was the culmination of a long effort on the part of the élites and the middle-classes to de-massify it. The perennially menacing mass – seen as plebeian and insubordinate – was to be drilled into submission, replaced by supposedly superior collective entities, such as the nation, the race, or the people. Focusing on Italian fascism and German National Socialism, but consulting fascist movements and individuals elsewhere in interwar Europe, the book incisively shows how fascism is best understood as ferociously resisting what Elias referred to as "the civilizing process" and what Marx termed "the social individual." Fascism, notably, was a revolt against what Nietzsche described as the peaceful, middling and egalitarian "Last Humans."

National Populism *Penguin UK*

A crucial new guide to one of the most important and most dangerous phenomena of our time: the rise of populism in the West Across the West, there is a rising tide of people who feel excluded, alienated from mainstream politics, and increasingly hostile towards minorities, immigrants and neo-liberal economics. Many of these voters are turning to national populist movements, which pose the most serious threat to the Western liberal democratic system, and its values, since the Second World War. From the United States to France, Austria to the UK, the national populist challenge to mainstream politics is all around us. But what is behind this exclusionary turn? Who supports these movements and why? What does their rise tell us about the health of liberal democratic politics in the West? And what, if anything, should we do to respond to these challenges? Written by two of

the foremost experts on fascism and the rise of the populist right, National Populism is a lucid and deeply-researched guide to the radical transformations of today's political landscape, revealing why liberal democracies across the West are being challenged-and what those who support them can do to help stem the tide.

Revolt Against the Sun *Saqi Books*

The Iraqi poet Nazik al-Malaika was one of the most important Arab poets of the twentieth century. Over the course of a four-decade career, her contributions to both the theory and the practice of free verse (or *tafilah*) poetry confirmed her position as a pioneer of Arab modernism. *Revolt Against the Sun* presents a selection of Nazik al-Malaika's poetry in English for the first time. Bringing together poems from each of her published collections, it traces al-Mala'ika's transformation from a lyrical Romantic poet in the 1940s to a fervently committed Arab nationalist in the 1970s and 1980s. The translations offer both an overview of her life and work, and an insight into the political and social realities in the Arab world in the decades following the Second World War. Featuring a comprehensive historical and critical introduction, this bilingual reader reveals how one woman transformed the landscape of modern Arabic literature and culture in the twentieth century. It is a key resource for students and teachers of Arabic and world literature, as well as for readers interested in discovering an alternative narrative of modern Iraqi culture.

The Revolt Against the Masses *Routledge*

The author of this stunning set of essays on politics and public policy makes crystal clear the meaning of the title. "The revolutionaries of contemporary America do not seek to redistribute privilege from those who have it to those who do not. These radicals wish to arrange a transfer of power from those elites who now exercise it to another elite, namely themselves, who do not. This aspiring elite is of the same race (white), the same class (upper middle and upper), and the same educational background (the best colleges and universities) as those they wish to displace." Wildavsky's bracing work takes a close look at these elites, who probably make up little more than one percent of the population. He sees their common denominator as hostility toward the masses, anti-American attitudes, derision of authority, and a belief in participatory rather than representative politics. The author carries through these themes in a variety of essays on black-white racial relations, social work orientations and black militancy, the politics of budgetary reform, elite and mass trends in the political party system, and the substitution of bureaucratic for democratic modes of advancing the policy process. This work is, in short, vintage Wildavsky: tough minded, spirited, and plain-spoken political analysis. In his new Introduction, Irving Louis Horowitz examines what has changed and what continues to be salient in Wildavsky's line of analysis. Essentially, the report card on *The Revolt Against the Masses* is that the situation described in these essays has changed somewhat in style but hardly at all in substance. The nuclear shield replaces the ABM treaty, and Afghanistan replaces Vietnam as centers of political gravity-but the same coalition of forces across party and economy still dominate the American political process. The justifiably famous essay on "The Two Presidencies" shows how persistent is the gap between the conflict over domestic priorities and the consensus on foreign policy-and why. This is, in short, a classic text that continues to merit careful study by all those interested in political life. Aaron Wildavsky was, until his death in 1993, professor of political science and public policy at the University of California in Berkeley. He was also director of its Survey Research Center. He served as director of the Russell-Sage Foundation, was a president of the American Political Science Association, and held a number of visiting professorships during his lifetime. Most recently, Transaction has posthumously published Wildavsky's complete essays and papers in five volumes. Irving Louis Horowitz is Hannah Arendt distinguished university professor emeritus at Rutgers, The State University, and longtime friend and associate of Aaron Wildavsky.

Missing Measures *University of Arkansas Press*

Examines the departure from meter and rhyme in modern poetry and the increased use of free verse

Revolt Against Modernity

Provides the first comparison of the thought of these two political philosophers and its influence on contemporary American conservatism.

Islam And Democracy *Basic Books*

Is Islam compatible with democracy? Must fundamentalism win out in the Middle East, or will democracy ever be possible? In this now-classic book, Islamic sociologist Fatima Mernissi explores the ways in which progressive Muslims--defenders of democracy, feminists, and others trying to resist fundamentalism--must use the same sacred texts as Muslims who use them for violent ends, to prove different views. Updated with a new introduction by the author written in the wake of the September 11 terrorist attacks on the United States, *Islam and Democracy* serves as a guide to the players moving the pieces on the rather grim Muslim chessboard. It shines new light on the people behind today's terrorist acts and raises provocative questions about the possibilities for democracy and human rights in the Islamic world. Essential reading for anyone interested in the politics of the Middle East today, *Islam and Democracy* is as timely now as it was upon its initial, celebrated publication.

The Revolt Against the Masses *Encounter Books*

This short book rewrites the history of modern American liberalism. It shows that what we think of as liberalism—the top-and-bottom coalition we associate with President Obama—began not with Progressivism or the New Deal but rather in the wake of WWI, in disillusionment with American society. In the 1920s, the first thinkers to call themselves liberals adopted the hostility to bourgeois life that had long characterized European intellectuals of both the left and right. The aim of liberalism's founders—such as Herbert Croly, Randolph Bourne, H.G. Wells, Sinclair Lewis, and H.L. Mencken—was to create an American version of the aristocracy long associated with European statism. Critical of mass democracy and middle-class capitalism, liberals despised the businessman's pursuit of profit as well as the conventional individual's pursuit of pleasure; and in the 1950s liberalism expressed itself in the scornful critique of popular culture. It was precisely the success of a recently elevated middle-class culture that

frightened the leaders of the New Class, who took up the priestly task of de-democratizing America in the name of administering newly developed rights. The neo-Malthusianism that emerged from the 1960s did not aim to control the breeding habits of the lower classes, as its eugenicist precursors had done, but to mock and restrain the buying habits of the middle class. Today's brand of liberalism, led by Barack Obama, has displaced the old Main Street private-sector middle class with a new middle class composed of public-sector workers allied with crony capitalists and the country's arbiters of elite style and taste.

The Rebel *Vintage*

By one of the most profoundly influential thinkers of our century, *The Rebel* is a classic essay on revolution. For Albert Camus, the urge to revolt is one of the "essential dimensions" of human nature, manifested in man's timeless Promethean struggle against the conditions of his existence, as well as the popular uprisings against established orders throughout history. And yet, with an eye toward the French Revolution and its regicides and deicides, he shows how inevitably the course of revolution leads to tyranny. As old regimes throughout the world collapse, *The Rebel* resonates as an ardent, eloquent, and supremely rational voice of conscience for our tumultuous times. Translated from the French by Anthony Bower.

Revolt *Picador*

A well-written and thought-provoking account of the current crisis of globalization. Not everyone will agree with Eyal's interpretation, but few will remain indifferent.' —Yuval Noah Harari, author of *Sapiens* *Revolt* is an eloquent and provocative challenge to the prevailing wisdom about the rise of nationalism and populism. With a vibrant and informed voice, Nadav Eyal illustrates how modern globalization is not sustainable. He contends that the collapse of the current world order is not so much about the imbalance between technological achievement and social progress or the breakdown of liberal democracy as it is about a passion to upend and destroy power structures that have become hollow, corrupt, or simply unresponsive to urgent needs. Eyal illuminates the benign and malignant forces that have so rapidly transformed our economic, political and cultural realities, shedding light not only on the economic and cultural revolution that has come to define our time but also on the counterrevolution waged by those it has marginalized and exploited. With a mixture of journalistic narrative, penetrating vignettes and original analysis, *Revolt* shows that the left and right have much in common. Eyal tells stories of distressed Pennsylvania coal miners, anarchist communes on the outskirts of Athens, a Japanese town with collapsing fertility rates, neo-Nazis in Germany and Syrian refugee families whom he accompanied from the shores of Greece to their destination in Germany. Into these reports from the present Eyal weaves lessons from the past, from the opium wars in China to colonialist Haiti to the Marshall Plan. With these historical ties, he shows that the revolts' roots have always been deep and strong, and that rather than seeing current uprisings as part of a passing phenomenon, we should recognize that revolt is the new status quo.

Egalitarianism as a Revolt Against Nature, and Other Essays *Ludwig von Mises Institute*

The Revolt of the Public and the Crisis of Authority in the New Millennium

Riding a tsunami of information, the public has trampled on the temples of authority in every domain of human activity, everywhere. The *Revolt of the Public* tells the story of how ordinary people, gifted amateurs networked in communities of interest, have swarmed over the hierarchies of accredited professionals, questioned their methods, and shouted their failures from the digital rooftops. In science, business, media - and, pre-eminently, in politics and government - established elites have lost the power to command attention and set the agenda.The consequences have been revolutionary. Insurgencies enabled by digital devices and a vast information sphere have mobilized millions, toppling dictators in Egypt and Tunisia, crushing the ruling Socialist Party in Spain, inspiring "Tea Parties" and "Occupations" in the United States. Trust in political authority stands at an all-time low around the world. The *Revolt of the Public* analyzes the composition of the public, the nature of authority and legitimacy, and the part played by the perturbing agent: information. A major theme of the book is whether democratic institutions can survive the assaults of a public that at times appears to be at war with any form of organization, if not with history itself.

The Revolt Against Psychiatry *Springer Nature*

A real eye-opener, this riveting anti/critical psychiatry book is comprised of original cutting-edge dialogues between Burstow (an antipsychiatry theorist and activist) and other leaders in the “revolt against psychiatry,” including radical practitioners, lawyers, reporters, activists, psychiatric survivors, academics, family members, and artists. People in dialogue with the author include Indigenous leader Roland Chrisjohn, psychiatrist Peter Breggin, survivor Lauren Tenney, and scholar China Mills. The single biggest focus/tension in the book is a psychiatry abolition position versus a critical psychiatry (or reformist) position. In the scope of this project, Burstow considers the ways racism, genocide, Indigeneity, sexism, media bias, madness, neurodiversity, and strategic activism are intertwined with critical and antipsychiatry.

The Doctrine of Awakening *Inner Traditions / Bear & Co*

Italian philosopher Julius Evola pares away centuries of adaptations to reveal Buddhist practice in its original context. Most surprisingly, he argues that the widespread belief in reincarnation is not an original Buddhist tenet. Evola presents actual practices of concentration and visualization, and places them in the larger metaphysical context of the Buddhist model of mind and universe.

The Tyranny of Merit *Farrar, Straus and Giroux*

A Times Literary Supplement's Book of the Year 2020 A New Statesman's Best Book of 2020 A Bloomberg's Best Book of 2020 A Guardian Best Book About Ideas of 2020 The world-renowned philosopher and author of the bestselling *Justice* explores the central question of our time: What has become of the common good? These are dangerous times for democracy. We live in an age of winners and losers, where the odds are stacked in favor of the

already fortunate. Stalled social mobility and entrenched inequality give the lie to the American credo that "you can make it if you try". The consequence is a brew of anger and frustration that has fueled populist protest and extreme polarization, and led to deep distrust of both government and our fellow citizens--leaving us morally unprepared to face the profound challenges of our time. World-renowned philosopher Michael J. Sandel argues that to overcome the crises that are upending our world, we must rethink the attitudes toward success and failure that have accompanied globalization and rising inequality. Sandel shows the hubris a meritocracy generates among the winners and the harsh judgement it imposes on those left behind, and traces the dire consequences across a wide swath of American life. He offers an alternative way of thinking about success--more attentive to the role of luck in human affairs, more conducive to an ethic of humility and solidarity, and more affirming of the dignity of work. The Tyranny of Merit points us toward a hopeful vision of a new politics of the common good.

From the Ruins of Empire *Macmillan*

Provides an overview of the great thinkers and philosophical leaders from across Asia who helped change and shape the modern continent, including Tagore and Gandhi in India, Liang Qichao in China and Abdurreshi al Ibrahim in the Ottoman Empire. 15,000 first printing.

Apocalypse, Revolution and Terrorism *Routledge*

This book focuses on religiously driven oppositional violence through the ages. Beginning with the 1st-century Sicari, it examines the commonalities that link apocalypticism, revolution, and terrorism occurring in Judaism, Christianity, and Islam past and present. It is divided into two sections, 'This was Then' and 'This is Now', which together examine the cultural and religious history of oppositional violence from the time of Jesus to the aftermath of the 2016 American election. The historical focus centers on how the movements, leaders and revolutionaries from earlier times are interpreted today through the lenses of historical memory and popular culture. The radical right is the primary but not exclusive focus of the second part of the book. At the same time, the work is intensely personal, in that it incorporates the author's experiences in the worlds of communist Eastern Europe, in the Iranian Revolution, and in the uprisings and wars in the Middle East and East Africa. This book will be of much interest to students of religious and political violence, religious studies, history, and security studies.

The Fourth Industrial Revolution *Currency*

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

Social Origins of Dictatorship and Democracy *Beacon Press*

A landmark in comparative history and a challenge to scholars of all lands who are trying to learn how we arrived at where we are now. -New York Times Book Review

Criminal Justice, Risk and the Revolt against Uncertainty *Springer Nature*

This book examines the impact and implications of the relationship between risk and criminal justice in advanced liberal democracies, in the context of the 'revolt against uncertainty' which has underpinned the rise of populist politics across these societies in recent years. It asks what impact the demands for more certainty and security, and the insistence that national identity be reasserted, will have on criminal law and penal policy. Drawing upon contributions made at a symposium held at Victoria University of Wellington, New Zealand in November 2018, this edited collection also discusses the way in which risk has come to inform sentencing practices, broader criminal justice processes and the critical issues associated with this. It also examines the growth and making of new ‘risky populations’ and the harnessing of risk-prevention logics, techniques and mechanisms which have inflated the influence of risk on criminal justice.

The Yoga of Power *Simon and Schuster*

Drawing from original texts on self-mastery, Evola discusses two Hindu movements--Tantrism and Shaktism--which emphasize a path of action to gain power over energies latent within the body.

The Creation of the Modern World *W. W. Norton & Company*

From a critically acclaimed author comes an engagingly written and groundbreaking new work that highlights the long-underestimated British role in delivering the Enlightenment to the modern world. Porter reveals how the monumental transformation of thinking in Great Britain influenced wider

developments elsewhere. of color illustrations.

The Moon Is a Harsh Mistress *Macmillan*

A one-armed computer technician, a radical blonde bombshell, an aging academic, and a sentient all-knowing computer lead the lunar population in a revolution against Earth's colonial rule

Facing Facts *Oxford University Press on Demand*

Shi provides the most comprehensive history to date of the rise of realism in American culture, vividly capturing the character and sweep of this all-encompassing movement that ranges from Winslow Homer to the rise of the Ash Can school, from Whitman to Henry James to Theodore Dreiser.

Revolt Against Reality *Catholic Answers Press*

Revolutions: A Very Short Introduction *Oxford University Press*

Revolutions have shaped world politics for the last three hundred years. This volume shows why revolutions occur, how they unfold, and where they created democracies and dictatorships. Jack A. Goldstone presents the history of revolutions from America and France to the collapse of the Soviet Union, 'People Power' revolutions, and the Arab revolts.

The Greek Revolution *Penguin*

Winner of the Duff Cooper Prize • One of The Economist's top history books of the year From one of our leading historians, an important new history of the Greek War of Independence—the ultimate worldwide liberal cause célèbre of the age of Byron, Europe's first nationalist uprising, and the beginning of the downward spiral of the Ottoman Empire—published two hundred years after its outbreak As Mark Mazower shows us in his enthralling and definitive new account, myths about the Greek War of Independence outpaced the facts from the very beginning, and for good reason. This was an unlikely cause, against long odds, a disorganized collection of Greek patriots up against what was still one of the most storied empires in the world, the Ottomans. The revolutionaries needed all the help they could get. And they got it as Europeans and Americans embraced the idea that the heirs to ancient Greece, the wellspring of Western civilization, were fighting for their freedom against the proverbial Eastern despot, the Turkish sultan. This was Christianity versus Islam, now given urgency by new ideas about the nation-state and democracy that were shaking up the old order. Lord Byron is only the most famous of the combatants who went to Greece to fight and die—along with many more who followed events passionately and supported the cause through art, music, and humanitarian aid. To many who did go, it was a rude awakening to find that the Greeks were a far cry from their illustrious forebears, and were often hard to tell apart from the Ottomans. Mazower does full justice to the realities on the ground as a revolutionary conspiracy triggered outright rebellion, and a fraying and distracted Ottoman leadership first missed the plot and then overreacted disastrously. He shows how and why ethnic cleansing commenced almost immediately on both sides. By the time the dust settled, Greece was free, and Europe was changed forever. It was a victory for a completely new kind of politics—international in its range and affiliations, popular in its origins, romantic in sentiment, and radical in its goals. It was here on the very edge of Europe that the first successful revolution took place in which a people claimed liberty for themselves and overthrew an entire empire to attain it, transforming diplomatic norms and the direction of European politics forever, and inaugurating a new world of nation-states, the world in which we still live.

The Reign of Quantity and the Signs of the Times *Penguin Group*

Critique of modern Western civilization from the point of view of traditional metaphysics

The Rebellion of the Daughters *Princeton University Press*

The Origins of the "Daughters' Question" -- Religious Ardor: Michalina Araten and Her Embrace of Catholicism -- Romantic Love: Debora Lewkowicz and Her Flight from the Village -- Intellectual Passion: Anna Kluger and Her Struggle for Higher Education -- Rebellious Daughters and the Literary Imagination: From Jacob Wassermann to S. Y. Agnon -- Bringing the Daughters Back: A New Model of Female Orthodox Jewish Education.

The Road to Somewhere *Oxford University Press*

A robust and timely investigation into the political and moral fault-lines that divide Brexit Britain and Trump's America -- and how a new settlement may be achieved. Several decades of greater economic and cultural openness in the West have not benefited all our citizens. Among those who have been left behind, a populist politics of culture and identity has successfully challenged the traditional politics of Left and Right, creating a new division: between the mobile 'achieved' identity of the people from Anywhere, and the marginalized, roots-based identity of the people from Somewhere. This schism accounts for the Brexit vote, the election of Donald Trump, the decline of the center-left, and the rise of populism across Europe. David Goodhart's compelling investigation of the new global politics reveals how the Somewhere backlash is a democratic response to the dominance of Anywhere interests, in everything from mass higher education to mass immigration.

Imperium *The Palingenesis Project (Wermod and Wermod Publishing Group)*

Written without notes in Ireland, and first published pseudonymously in 1948, Imperium is Francis Parker Yockey’s masterpiece. It is a critique of 19th-century rationalism and materialism, synthesising Oswald Spengler, Carl Schmitt, and Klaus Haushofer’s geopolitics. In particular, it rethinks the themes of Spengler's The Decline of the West in an effort to account for the United States’ then recent involvement in World War II and for the task bequeathed to Europe’s political soldiers in the struggle to unite the Continent—heroically, rather than economically—in the realisation of the destiny

implied in European High Culture. Yockey’s radical attack on liberal thought, especially that embodied by Americanism (distinct from America or Americans), condemned his work to obscurity, its appeal limited to the post-war fascist underground. Yet, Imperium transcends both the immediate post-war situation and its initial readership: it opened pathways to a deconstruction of liberalism, and introduced the concept of cultural vitalism— the organic conceptualisation of culture, with all that attends to it. These contributions are even more relevant now than in their day, and provide us with

a deeper understanding of, as well as tools to deal with, the situation in the West in current century. It is with this in mind that the present, 900-page, fully-annotated edition is offered, complete with a major foreword by Dr Kerry Bolton, Julius Evola’s review as an afterword (in a fresh new translation), a comprehensive index, a chronology of Yockey's life, and an appendix, revealing, for the first time, much previously unknown information about the author's genealogical background.
