According to an article in LSE Cities, "living in crowded areas is associated with increased social stress, since the environment becomes less controllable for the individual." The sheer reality of constantly being surrounded by people is interpreted by the brain as a lack of control, be it consciously or subconsciously, which increases anxiety.

Health Impact: The Pros and Cons of Living in a City

The term inner city has been used, especially in the US, as a euphemism for lower-income residential districts, sometimes but not exclusively referring to African-American neighborhoods, in a downtown or city centre area. Sociologists sometimes turn this euphemism into a formal designation, applying the term "inner city" to such residential areas, rather than to geographically more central commercial districts. The word "downtown" is also used to describe the inner city or city centre ...
