As nouns the difference between continuity and contiguity is that continuity is lack of interruption or disconnection; the quality of being continuous in space or time while contiguity is a state in which two or more physical objects are physically touching one another or in which sections of a plane border on one another.

Continuity vs Contiguity - What's the difference? | WikiDiff

In summary, this previous sentence's statement of absolute continuity is false. The contiguity property replaces this requirement with an asymptotic one: Q_n is contiguous with respect to P_n if the "limiting support" of Q_n is a subset of the limiting support of P_n . By the aforementioned logic, this statement is also false. It is possible however that each of the measures Q_n be absolutely ...
