Guide To Car Park Lighting

Lighting should be concentrated onto the main car parking area with careful consideration given to adjacent buildings. If the car park is in a residential area, consider light spill into back gardens or windows – as this could constitute a statutory nuisance if the resident complains to their local authority. Keep column numbers to a minimum. Bracket arms and luminaires with zero degree inclinations and choose light sources with minimal upward light.

How To Light Car Parks | DW Windsor

It is important with car parks to design them so that light comes from several directions. This is to reduce the chance of deep shadows between the cars. Guidance on illumination levels is found in national standards such as EN 12464-2 or BS 5489. Small car parks are often illuminated from the perimeter. If the car park already exists, it saves ...
