(PDF) Indigenous Peoples and Biodiversity

The recognition that local and indigenous people have their own ecological understandings, conservation practices and resource management goals has important implications. It transforms the relationship between biodiversity managers and local communities. While previously they were perceived simply as resource users, indigenous people are now recognised as essential partners in environmental management.

Indigenous Knowledge and Biodiversity - UNESCO

Indigenous communities have been involved in accessing funds and participating in GEF-funded projects in the areas of biodiversity, sustainable land management, international waters, climate change and POPs. Indigenous involvement has been by far the greatest in the biodiversity focal area, as indigenous communities are closely tied to land, forests,

Indigenous Communities and Biodiversity

Indigenous Peoples and local communities manage more than half of the world's land. These biodiverse ancestral lands are vital to the people who steward them and the planet we all

share. But governments only recognize indigenous and community legal ownership of 10 percent of the world's lands. Secure tenure is essential for safeguarding the existing forests against external

COVID-19, Biodiversity and Climate Change: Indigenous ...

Indigenous-led Conservation Builds Momentum in Canada. Because Indigenous Peoples and local communities play such a pivotal role in sustaining biodiversity, the UN released a companion report called the Local Biodiversity Outlook. It finds that one of the main reasons the world has failed to meet its biodiversity targets is the failure to recognize the vital contributions Indigenous Peoples and local

communities make to conservation.

UN Biodiversity Reports Calls for Greater Role for ...

The United Nations issued two major reports recently about the state of biodiversity—the plants, animals, and natural systems we all depend on. The reports highlighted positive examples of conservation leadership from countries around the world. When it came to Canada, most of the solutions the UN cited are led by Indigenous Peoples.
