Java exceptions have been the subject of considerable debate in the community. Some have argued that checked exceptions in the Java language are an experiment that failed. This article argues that the fault does not lie with the Java model, but with Java library designers who failed to acknowledge the two basic causes of method failure.

Effective Java Exceptions - Oracle

The child does not have a sin in being born disabled. If its parents have a fault in it, the sin lies with them. If blind people had not been blind, they might chase after evil things and so ruin their lives in this and the next worlds. On the other hand, some other blind people are not content with the Creator's decree and rebel against Him.
