Product Information
The Speedlite 420EX is
sure to appeal to EOS
users everywhere with

its combination of power, features and affordability. It is fully E-TTL-compatible, and reverts to standard TTL operation when used on older EOS bodies or the T90. The fully swiveling bounce head zooms automatically over a range of 24mm-105mm.

Canon is very good at making their camera equipment forward and backwards compatible. The 420EX will work, but because it is an older model it will not be fully compatible

with the built in flash menu that has been on all Canon cameras since 2008. You will only be able to change settings directly on the flash itself.
