Partnering requires a change in the culture in which most people have been trained and to which they have become accustomed for the whole of their working lives. If they believe that lip service is being paid to 'just another initiative', the partnering arrangement will not succeed. It is crucial to

seek and achieve buy-in from

Partnering - Constructing Excellence

Partnering requires both expertise and commitment from the client to set up and manage the process effectively and to act as an adjudicator of disputes. It can be arranged either by use of a traditional contract with a separate partnering agreement, or by use of a contract with an aligned partnering agreement. It can be either a two-party or multi-party arrangement.

Partnering in construction - Designing Buildings Wiki

Partnering is a project approach designed to allow the design and

construction process to be performed within an environment of mutual trust, commitment to shared goals, and open communication among the client, architect/engineer, construction manager, general contractor (if applicable), and subcontractors.

PARTNERING: A TEAMWORK APPROACH | The Use of Partnering in ...

An effective business partner is “the one who makes connections between people and between issues,” Broers said. “They will be sitting in the middle of the table brokering and linking up points,

adding an overview and the financial angle.” Influencing and communication skills are particularly important for making these connections.

5 behaviours for effective business partnering

Making partner in a Big 4 firm means, in the eyes of your peers, you have really made it. You have been given the biggest badge of approval for your professional competence. The reality is often something slightly different. You have to work many, many long hours and sacrifice a huge amount to make it to partner.
