This book defends the view that any adequate account of rational decision making must take a decision maker's beliefs about causal relations into account. The early chapters of the book introduce the non-specialist to the rudiments of expected utility theory. The major technical advance offered by the book is a 'representation theorem' that shows that both causal decision theory and its main rival, Richard Jeffrey's logic of decision, are both instances of a more

general conditional decision ...

The Foundations of Causal Decision Theory. The Foundations of Causal Decision Theory Fitelson, Branden In it Grice is not interested in distinguishing the categories of value or the good from reasons, nor in exploring their relations to desirability, to wanting or to intending. Some of the relevant questions were explored by him in The Conception of Value (Oxford: Oxford University Press, 1991), based on his 1983 Carus lectures.
