From the creator of the popular website Ask a Manager and New York’s work-advice columnist

comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There’s a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don’t know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You’ll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you’re being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate’s loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green’s] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Sleep and Aging *Elsevier*

Alterations in sleep are common manifestations of aging that can lead to significant health problems and contribute to behavioural problems associated with age-related neurodegenerative disorders such as Alzheimer's and Parkinson's diseases. Recent advances have revealed key cellular and molecular mechanisms involved in sleep regulation, and this knowledge is helping to advance an understanding of both the normal functions of sleep and the mechanisms responsible for abnormalities in sleep in various neurological conditions and during normal aging. This volume of *Advances in Cell Aging and Gerontology* brings together chapters by leaders in the fields of sleep research and the neurobiology of aging. The book starts with chapters describing fundamental aspects of the neurocircuitry involved in sleep, patterns of brain activity during the different stages of sleep and disturbances of sleep during aging. The links between depression, anxiety and insomnia are reviewed in regards to the underlying neurochemical alterations that appear to involve abnormalities in neurotransmitter and neurotrophic factor signalling. The evolutionary basis of sleep is reviewed and the emerging evidence supporting a major role for sleep in learning and memory is described. The bulk of the book focuses on specific sleep disorders associated with aging and age-related neurodegenerative disorders. A comprehensive consideration of this topic is woven through a number of chapters that address both basic research and clinical aspects of sleep abnormalities during aging and in disease. The impact of sleep on the immune system is described. The articles are written in a high level of detail and are comprehensive, thus providing valuable information for a

range of scientists and other well-educated people. In particular, the book will be a valuable resource for graduate students, postdoctoral and senior scientists in the fields of sleep, aging, neurodegenerative disorders and learning and memory. In addition, clinicians will find this book valuable as it provides a bridge between basic research and the treatment of the patients with sleep disorders. * Covers the fields of sleep in aging and age-related disease from neurochemistry to the clinic * Includes detailed summary diagrams that depict key concepts * Provides views of the future of research on sleep and aging, and the potential for prevention and treatment of various sleep disorders

And Miles To Go Before I Sleep *Coach House Books*

Smart, raunchy poems that are sorry-not-sorry. "Sticky, sad, and sultry, *Exhibitionist* is a merry-go-round circling back to the tender, awkward parts of ourselves. Molly Cross-Blanchard allows her poems to ask the reader out for ice cream, to fart at a dinner party, to sprawl out on a chaise lounge, stare through a dusty skylight and whisper that they think they may love you. And that love will be unmistakably mutual." — Mallory Tater, author of *The Birth Yard* and *This Will Be Good* "Multiple orgasms appear in the first line of the first poem in *Exhibitionist*. Multiple orgasms, as a relative image or a practice, elicit everything from mystical worship to moral panic. Molly Cross-Blanchard understands this diametric power. She nods to this power with countless crisp and explicit images throughout her debut collection. Read her poems first to marvel at the well-crafted voicing of sexuality. Read a second time to appreciate Cross-Blanchard's beautiful charge of juxtaposition. Again and again, she places the erotic beside mundane so that both are transformed — a dirty basement carpet becomes the backdrop of profound intimacy and gas station coffee acts as a symbol of self-discovery." —Amber Dawn, author of *My Art is Killing Me* and *Sodom Road Exit One* minute she's drying her underwear on the corner of your mirror, the next she's asking the sky to swallow her up: the narrator of *Exhibitionist* oscillates between a complete rejection of shame and the consuming heaviness of it. Painfully funny, brutally honest, and alarmingly perceptive, Molly Cross-Blanchard's poems use humour and pop culture as vehicles for empathy and sorry-not-sorry confessionalism. What this speaker wants more than anything is to be seen, to tell you the worst things about herself in hopes that you'll still like her by the end.

Last Call at the Hotel Imperial

The Reporters Who Took On a World at War *Random House*

A prize-winning historian's revelatory account of a close-knit band of wildly famous American reporters who, in the run-up to World War II, took on dictators and rewrote the rules of modern journalism "As intimate and gripping as a novel, this brilliant book vividly conveys what it felt like to live through the shocking crises of the thirties and forties."—Larissa MacFarquhar, author of *Strangers Drowning* They were an astonishing group: glamorous, gutsy, and irreverent to the bone. As cub reporters in the 1920s, they roamed across a war-ravaged world, sometimes perched atop mules on wooden saddles, sometimes gliding through countries in the splendor of a first-class sleeper car. While empires collapsed and fledgling democracies faltered, they chased deposed empresses, international financiers, and Balkan gun-runners, and then knocked back doubles late into the night. Last Call at the Hotel Imperial is the extraordinary story of John Gunther, H. R. Knickerbocker, Vincent Sheean, and Dorothy Thompson. In those tumultuous years, they landed exclusive interviews with Hitler and Mussolini, Nehru and Gandhi, and helped shape what Americans knew about the world. Alongside these backstage glimpses into the halls of power, they left another equally incredible set of records. Living in the heady afterglow of Freud, they subjected themselves to frank, critical scrutiny and argued about love, war, sex, death, and everything in between. Plunged into successive global crises, Gunther, Knickerbocker, Sheean, and Thompson could no longer separate themselves from the turmoil that surrounded them. To tell that story, they broke long-standing taboos. From their circle came not just the first modern account of illness in Gunther's *Death Be Not Proud*—a memoir about his son's death from cancer—but the first no-holds-barred chronicle of a marriage: Sheean's *Dorothy and Red*, about Thompson's fractious relationship with Sinclair Lewis. Told with the immediacy of a conversation overheard, this revelatory book captures how the global upheavals of the twentieth century felt up close.

Adolescent Sleep Patterns

Biological, Social, and Psychological Influences *Cambridge University Press*

There is a growing concern in relation to the problem of insufficient sleep, particularly in the United States. In the early 1990s a Congressionally mandated commission noted that insufficient sleep is a major contributor to catastrophic events, such as Chernobyl and the Exxon Valdez, as well as personal tragedies, such as automobile accidents. Adolescents appear to be among the most sleep-deprived populations in our society, though they are rarely included in sleep assessments. This book explores the genesis and development of sleep patterns in adolescents. It examines biological and cultural factors that influence sleep patterns, presents risks associated with lack of sleep, and reveals the effects of environmental factors such as work and school schedules on sleep. Adolescent Sleep Patterns will appeal to psychologists and sociologists of adolescence who have not yet considered the important role of sleep in the lives of our youth.

When her boss shows, he's shocked to see her—because, he explains, she hasn't worked there in five years. Ally knows her name, but is having trouble coming up with much beyond that, though after a trip to the psychiatric ER, she begins to piece together important facts: she lives on the Upper West Side; she's now a freelance journalist; she's married to a terrific man named Hugh. More memories materialize and yet she still can't recall anything about the previous two days. Diagnosed as having experienced a dissociative state, she starts to wonder if it may have been triggered by something she saw. Could she have witnessed an accident—or worse—had something happened to her? Desperate for answers, Ally tries to track where she spent the missing days, but every detail she unearths points to an explanation that's increasingly ominous, and it's clear someone wants to prevent her from learning where those forty-eight hours went. In order to uncover the truth, Ally must dig deep into the secrets of her past—and outsmart the person who seems determined to silence her.
