Global Production Networks: Theorizing Economic ... The rise of global production networks (GPNs) is 'perhaps the predominant organisational feature of the world economic

system' (p. 3), argue Neil Coe and Henry Wai-Chung Yeung, both directors at the recently launched Global Production Networks Centre at the National University of Singapore. Accompanying the intensification of economic globalization has been a collaborative effort to theorize GPNs as a framework for analysing global production and its local developmental impacts in regions.

Global Production Networks: Theorizing Economic ...

Abstract. Accelerating processes of economic globalization have fundamentally reshaped the organization of the global economy towards much greater integration and functional interdependence through cross-border economic activity. In this interconnected world system, a new form of economic organization, termed global production networks (GPNs) in this book, has emerged that brings together a wide array of economic actors, most notably capitalist firms, state institutions, labour unions, ...

Book Review: Global Production Networks: Theorizing ...

This book ultimately aims to develop a theory of global production networks that explains economic development in the interconnected global economy. While primarily theoretical in nature, it is well grounded in cutting-edge empirical work in the parallel and highly impactful strands of social science literature on the changing organization of the global economy relating to global commodity chains (GCC), global value chains (GVC), and global production networks (GPN).
