When this switch fails your air conditioning is dead in the water.
Blower Motor- If there is no air blowing from your F150 at all, the blower motor is at fault. They are not that expensive and are easy to replace (most of the time). Blend Door- The blend door controls how much air conditioned and heated air enters the cabin. If it gets jammed or locks up, your F150 can't respond to your

temperature change request.
