Everything in the Universe is in motion because forces exist in the Universe. The gravitational force and the electromagnetic force ensure large objects are in motion while the weak and strong nuclear forces ensure the quantum world is constantly in motion. If there were no forces, there would be no

motion. The question of why there are forces in the Universe is currently unanswerable by science.

Everything is on the Move edited by Stephan Conermann at isdistribution.com In this volume, we try to understand the "Mamluk Empire" not as a confined space but as a region where several nodes of different networks existed side-by-side and at the same time. In our opinion, these networks constitute to a great extent the core of the so-called Mamluk society; they form the basis of the social order.
