Pure is a horror story about atomic detonations gone wrong. Yeah—if that isn't a terrifying thought, I don't know what is. Julianna Baggott postulates a post-apocalyptic world that is the fevered vision of a madman in a dome. And that's where it all starts falling

apart.

Pure is the opening salvo in the ever present trilogy and Baggott takes her time setting up her world and her characters, however the novel does stand alone and the reader isn't left hanging off the side of a cliff. I love series and linked novels and serials, but I hate the current trope that leaves the reader unsatisfied at the end of a book.
