Ogden Table 2 tells you that the lifetime multiplier for a woman aged 75 is 16.23. She is now aged 50, so this period of loss will start in 25 years' time. Ogden Table 27 gives us a factor of 1.2071 for a loss that will start in 25 years' time (see example 9 above). Her claim for care is therefore $[16.23 \times 1.2071 \times \text{£}8,429] = \text{£}165,135$.
