They can be burns, scars, lacerations,

nasal fractures or any other kind of facial bone fractures, as well as bruises or eye injuries. Maxillofacial injuries cause disfigurement, if not treated well or fast enough. They can appear right after an accident, or even later after it. Some of

the most common maxillofacial injuries and the ones that are treated the most at The Esthetic Clinics are the eyelid, orbital, maxillary, mandibular or general facial abnormalities.
