Health Data Exchange (HDE) for Hospitals | ESO

Typical data exchange standards define a common format for data that describes how data should be serialised or structured for sharing. Or it might combine common formats, shared vocabularies and other rules to describe what data should be shared to solve a specific problem. For data exchange, you can standardise:

Types of open standards for data | Open Standards for Data ...

When data is collected using effective data standards, every subsequent step in the lifecycle (assembly, analysis and interpretation, distribution and change) is made easier for each system and organisation involved. This helps improve patient outcomes with better quality data for primary and secondary uses.
