When we shipped TFS 2017 and Visual Studio 2017, we didn't provide a "Team Explorer" like solution. Historically our Team Explorer installer has been available for customers that want a rich client to access version control and some work item tracking features in TFS or VS Team Services. We didn't release it because we needed to create a new version of it based on the new Visual Studio installer technology that was introduced in VS 2017 and we just didn't have time to do that ...
