The South Africa Reader- Combined Academic

Scientists researching the periods before written historical records were made have established that the territory of what is now referred to generically as South Africa was one of the important centers of human evolution. It was inhabited by Australopithecines since at least 2.5 million years ago.

The name "South Africa" is derived from the country's geographic location at the southern tip of Africa. Upon formation, the country was named the Union of South Africa in English and Unie van Zuid-Afrika in Dutch, reflecting its origin from the unification of four formerly separate British colonies. Since 1961, the long formal name in English has been the "Republic of South Africa" and ...
