The good uncertainty management can significantly improve the quality of

product design. In this research, three types of uncertainties of MDO in conceptual design are analyzed, and a novel systematic approach is proposed to reduce these uncertainties. Uncertain variables are represented by probabilistic forms to reduce the variable uncertainties.

An Uncertainty Analysis Approach to Multidisciplinary ...

Uncertainty analysis aims at quantifying the variability of the output that is due to the variability of the input. The quantification is most often performed by estimating statistical quantities of interest such as mean, median, and population quantiles. The estimation relies on uncertainty propagation techniques.
