Risk Taking A Managerial Perspective

Managerial risk taking is a critical aspect of strategic management. To improve competitive advantage and performance, managers need to take risks, often in an uncertain environment. Formal economic assumptions of risk taking suggest that if the expected values for two strategies are similar but one is a greater gamble (uncertain), managers will choose the strategy with a more certain outcome.

They assign roles and responsibilities for risk management throughout the organization, creating company-wide awareness of and accountability for risk management. The result is an approach to risk which moves well beyond the mere use of controls to limit risk exposure. Instead, it creates risk optimization and even risk leadership – the process by which an organization is able to seize opportunities within defined risk parameters and capitalize on the rewards that follow.
